NUMBER 88

## Motel Robbed By Pair

The Holiday Inn was held up today at 2:25 a.m. by two Negroes, \$23 taken from the cash register and a wrist watch from Assistant Manager Dean Childers, the highway patrol said today.

Both men were believed to be 23, five feet, eight inches tall. One of the men was wearing a grey overcoat and a black mask over his face, while the other wore a brown jacket with a multicolored mask. One carried a .410 gauge shotgun.

The men left in a blue 1968 Mustang, according to an eye-witness but the car was parked too far away from the motel entrance for him to read the license number, the patrol said.

## Employe Of Mill Found Dead

Scott County Coroner Gene Nunnelee reported an autopsy will be performed this afternoon to determine the cause of death of Willie James Allen, 54, 1701 Washington.

Allen was found dead this morning in a seed room at the Cotton Oil Mill, where he was employed.

The coroner said there was no evidence of foul play.

Allen was reported missing by his wife about 6 a.m., the time he normally returns home from work.

His body was found partially covered with seed by fellow employees about 8:30 a.m.

Nunnelee said the autopsy is to ascertain the cause of death, whether from suffocation, heart failure or other.

## Four Sentenced And Placed On Parole

NEW MADRID — Four were sentenced on criminal charges in circuit court Wednesday after entering guilty pleas; two changes of venue were granted in criminal cases and 12 criminal charges were dismissed.

Judge William L. Ragland presided.

Larry Jine Blasingim and Robert Moreland were each sentenced to four years in the department of corrections and were granted parole under supervision. The pair were charged with grand larceny in connection with the theft Nov. 15 of an automobile belonging to Acie F. Hayes.

Charles A. Sissom was granted probation with supervision after receiving three year sentence for grand larceny. He was charged with stealing \$139.35 November 23 from the Busy Bee Shell Station at Kewanee.

Probation under supervision was granted George Lee King after he entered a plea of guilty to a third offense of driving while intoxicated and was sentenced to two years in the department of corrections.

Jimmy Clay, charged with possession of stolen property, was granted a change of venue to Pemiscot County. A change of venue to Mississippi County was granted Dean O. Martin, charged with possession of stolen property.

Criminal charges dismissed included Eugene Robinson, felonious assault; John L. Jones, burglary and larceny; Homer Owens and Ronnie Lawrence, burglary and larceny; Coy Sauls, manslaughter by an automobile; Terry Hicks, breaking and entering; Alton Jackson and Bobby Bramlett, aiding and abetting.

Jimmy Barber, burglary and larceny; Robert Charles Wright, jailbreak; Howard Moran, burglary and larceny; Joe Reed, felonious stealing; Fred Grant, felonious assault; and George Lee King, driving while intoxicated, fourth offense.

## Drainage District Annual Meeting Set for Monday

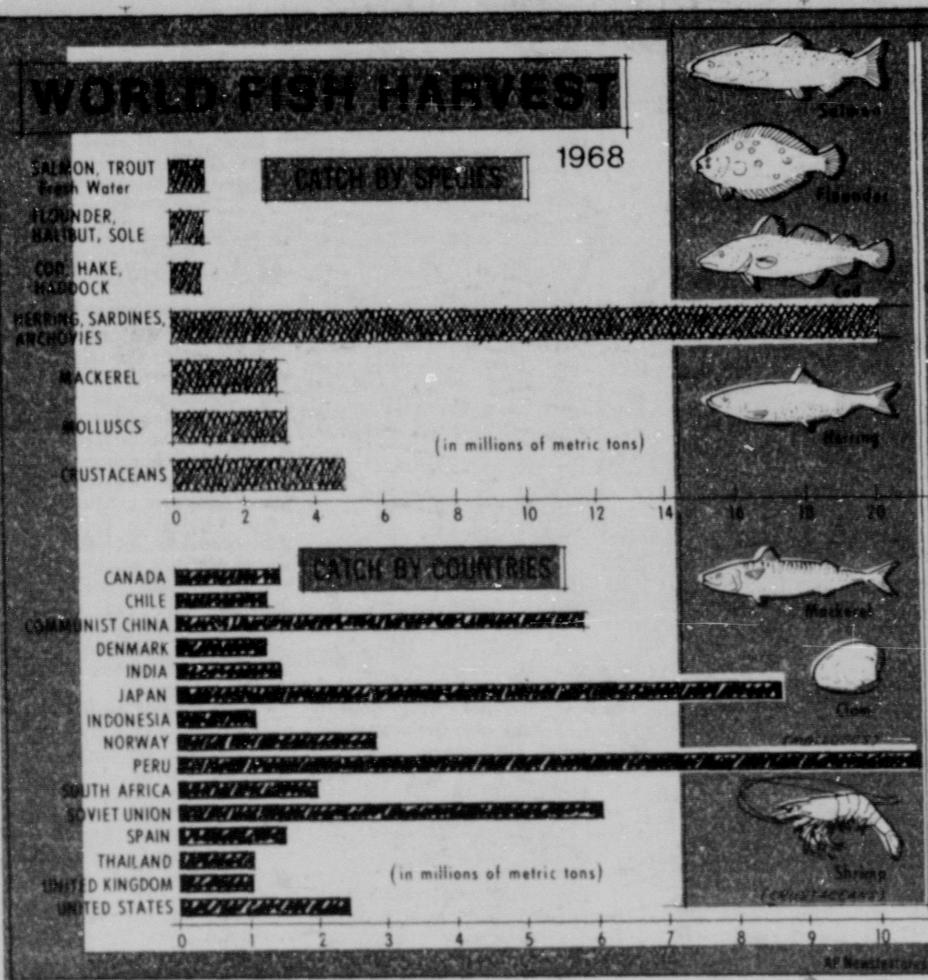

G. B. Greer, board president of the Richland Drainage District of Scott and New Madrid counties, announced the annual landowners meeting will be held at 10 a.m. Monday in the basement of the Production Credit Association building.

Harmon Tanner's term on the board has expired and a director will be elected to fill this post.

Other board members are Bill Gemeinhardt, Willard Sanders and Emil Shuhart.

Tharon Stallings is secretary-treasurer.

J. E. Childress

## Record Fish Harvest

UNITED NATIONS, N.Y. — The world continues to harvest record quantities of fish both from the fresh waters of its rivers and lakes and from the oceans.

Figures just published by the Food and Agricultural Organization show not only that the 1968 catch set a new high but that the upward climb has been steady for the past 10 years.

The total for last year was 64 million metric tons, compared to 60,700,000 metric tons in 1967 and 33,200,000 metric tons in 1958.

The FAO Yearbook of Fishery Statistics also shows that increases took place in almost every category from the popular cod and haddock to such gourmet types as lobsters, shrimp and prawns.

Even the catch of turtles, which is almost every sea, increases even though the catch of turtles, were recorded. However, catches

dropped from 1,300,000 tons in 1967 to 800,000 tons last year, because of decreased fishing there by the Soviet Union. In 1968 there was a levelling off of catches in the northeast Atlantic and Indian Ocean. Catches in the Mediterranean also remained unusually good for both.

Peru again topped the list with a record catch of 10,520,300 metric tons. Almost all the Peruvian catch, however, was anchoveta, which was converted into fishmeal for export. This high protein food is used mainly for cattle.

Next were Japan, the Soviet Union, mainland China, Norway and the United States. All these except Norway showed an increase over 1967. Iceland, a traditional fishing country, continued to drop from its high of 1,240,000 tons in 1966. It caught only 600,700 tons last year.

The FAO Yearbook of Fishery Statistics also shows that increases took place in almost every category from the popular cod and haddock to such gourmet types as lobsters, shrimp and prawns.

\*\*\*  
POOR CHARLIE SAYS!  
WAITING FOR THE TRAIN

The small, weather-stained building sits beside rusted rails. No more does the train come rumbling and clattering to a stop. The village depot has played its role and now drowses through the heat of summer and the storms of winter.

Time was, half a century ago, when waiting for the train was a highlight of the day for villagers. On a Saturday afternoon it was always good news when father said, "Son, Belle needs a run. Hitch the Morgan to the pung, get the cream jugs and a bag of cottonseed meal."

An hour before old 57 was due from the city, men and boys began to gather. The pot-bellied stove threw a welcome warmth; the floor was dark and splintered and the windows were gray and grimy with old cobwebs.

The small office of the station agent was cluttered with papers; the telegraph on the windowsill shelf clacked out mysterious messages. Farm lads studied the posters of wanted criminals and planned how to spend the \$5000 offered for a train robber.

Then, suddenly, far down the track one heard the thin, high-pitched whistle as the engineer blew for Wilder's Crossing. In a few minutes, the train came chugging into the station with bell clanging and the dry screeching of brakes as the train rumbled to a stop. Milk cans and cream jugs, chicken crates, boxes and cartons were tossed onto the steel-wheeled station cart.

"All aboard" shouted the conductor. With staccato steam blasts and ringing bell, the train pulled out. Small village depots have disappeared, but there are men who still recall the fun of waiting for a train.

Heard at the coffee table: "There's always something about a self-made man that shows."

Ben Franklin said it: "To bear other people's afflictions, everyone has courage and enough to spare."

Tell the boss how busy you are. He's looking for someone with job-time they could use for working.

DON'T JUST SIT THERE - DO SOMETHING!

"The plumber was here only 10 minutes to fix the stopped-up sink, and his bill was \$15!"

"I've had my car into the garage three times, and they still haven't found out what is making that strange noise."

"The heating repairman said he can't get here until a week from next Monday."

According to a survey by the Family Economics Bureau, getting household appliances, home and automobiles repaired is one of the biggest problems facing the American consumer.

When one of the almost billion appliances or 100 million automobiles breaks down, what can be done? Throw it away and buy a new one? Fix it yourself? Or prepare to fight the battle and pay the price?

Better Business Bureaus report that service problems are their major source of complaints.

B.B.B. found that getting things repaired today often involve maddening delays, shoddy workmanship and startling expense. Incompetence and "I don't care" attitude increasingly characterize repairmen.

The training of qualified personnel apparently cannot keep up with the growing number of appliances and automobiles. In the auto industry, for example, the number of vehicles has increased 100% in the last 20 years, while the number of mechanics increased little more than 20%. Carpenters, plumbers and electricians are just as hard to find.

Prices for good repair work are high, but the consumer must be prepared to accept them. When phoning for a serviceman, the Better Business Bureau recommends asking for a quotation of the company's standard rates. If the rates seem too high, check elsewhere.

Good service just doesn't happen. Charges include not only wages of the repairmen for his time on the job, but also the cost of his truck, equipment, travel time and specialized training -- which might have taken up to four years!

A spare parts inventory, office rent and equipment, utilities, taxes and insurance are all figured in the cost. Remember too, the company has to make a profit to stay in business.

Twelve years ago the well-equipped appliance repairman went out with \$100 worth of tools in his truck. Today that same repairman may carry as much as \$3500 worth of tools and equipment, much of it highly technical.

Different repair parts -- 100,000 of them -- are needed for cars now in use. There are 200 parts in a TV set that could cause a picture failure. Is it any wonder that an appliance parts distributor can have a \$70,000 parts inventory?

Americans discard repairable items worth an estimated \$18 billion every year. This is simply because it often makes no sense to get things fixed at the going prices for services. Appliances and autos are often so complex that even finding the problem requires hours of costly labor.

A consumer can help eliminate the need for service calls. First and foremost, manufacturers and repairmen alike say that consumers should read the instruction book or operator's manual that comes with any new appliance or automobile.

Joseph Gauss said, "In about 1/3 of all in-warranty service calls, it isn't service that's needed, it's education." Many repair jobs require merely plugging in the appliance.

A little preventive maintenance will eliminate many breakdowns. Failure to defrost a refrigerator or freezer when needed can result in a burned out motor. Washing machine overloading is a major cause of equipment breakdown -- as well as poor laundering results. Regular oil changes prevent costly repairs to other parts of the car.

Check carefully on the guarantees and warranties on all new appliances and autos. Know just exactly what

they cover, and who will do the work.

A man around the house who is mechanically inclined can save tremendous amounts in repair costs. Discovered there is lots of help available. Many manufacturers give directions for replacing minor parts in their instruction books.

Tools are widely available for do-it-yourself home repair. Many tools can also be rented. Home magazines are devoting more space to home repairs. Trade associations such as the Plumbing, Heating and Cooling Information Bureau in Chicago put out booklets explaining how to do minor repairs at home. State home extension offices and county agents have many pamphlets on how to repair a wide variety of items.

Bookstores and libraries offer a large assortment of "home repair encyclopedias". Public libraries even have available auto dealers service manuals which can provide great help for the home mechanic.

Industry is beginning to offer help to the "do-it-yourself" too. Ford considers the Maverick a repair-it-yourself car. Proctor-Silex is making small appliances that can be repaired at home. Each is built on a module basis; these modules can be snapped apart and easily replaced. Some parts distributors are advertising themselves as "the parts depot for the do-it-yourself".

When home repairs fail or are not feasible, look for the most reliable serviceman or contractor you can find. The Family Economics Bureau found there are many of them. Check with the Better Business Bureau if there is doubt about a company. Find out where friends have had good service performed. For a big job get several estimates; reliable firms will not charge for this.

An authorized appliance or auto service center has to meet rigid industry standards in terms of equipment and manpower training. Independent servicemen also depend on repeat business and build up a reputation for competence.

If the work is still not satisfactory, or the service is poor don't just sit there and boil -- do something about it!

Speak up! Direct the power of the consumer to the channels where it will do some good. Write to the Better Business Bureau or the local Chamber of Commerce.

The Association of Home Appliance Manufacturers in Chicago serves as a clearing house for dissatisfied consumers. It forwards complaints and follows up to see that legitimate gripes are satisfied.

When you have a justified complaint, write to the manufacturer. He wants to know. He realizes that an angry customer will buy from somebody else next year.

Whirlpool Corporation has one of the best methods of meeting customer satisfaction. Their appliance warranty is an easy-to-understand and friendly letter. They have also set up a 24-hour-a-day national toll-free telephone service to answer complaints.

Letters to the industry have really helped in the appliance field. The same needs to be done in the auto industry and in the field of home repairs.

Whatever you do, do something. Don't just sit there and boil!

Gina Lollabrigida recently observed:

"In America women are so important and so selfish that they can almost live without men."

A compact crash-up is usually a messy-smashup.

## Hal Boyle

NEW YORK (AP) - A lot of very own people already have had bad consciences, although 1970 is only health as the result of taking a week old.

They feel guilty, are nights a week. shamefaced, and can hardly look their fellow man in the eye.

This is because they have already broken a raft of good resolutions they made just a week ago. Seeking to perfect themselves all at once, in a burst of rash enthusiasm they pledged themselves to high resolves that even a cautious angel in heaven would fear to vow.

If all your good resolutions are negative, they may be more harmful than helpful. You must balance them with positive resolutions. A negative resolution is one in which you declare you'll quit doing something that is wrong or bad for you. A positive resolution is one by which you pledge to do something that is good for you.

In any case, the resolution, instead of just circulating kind words about him behind his back.

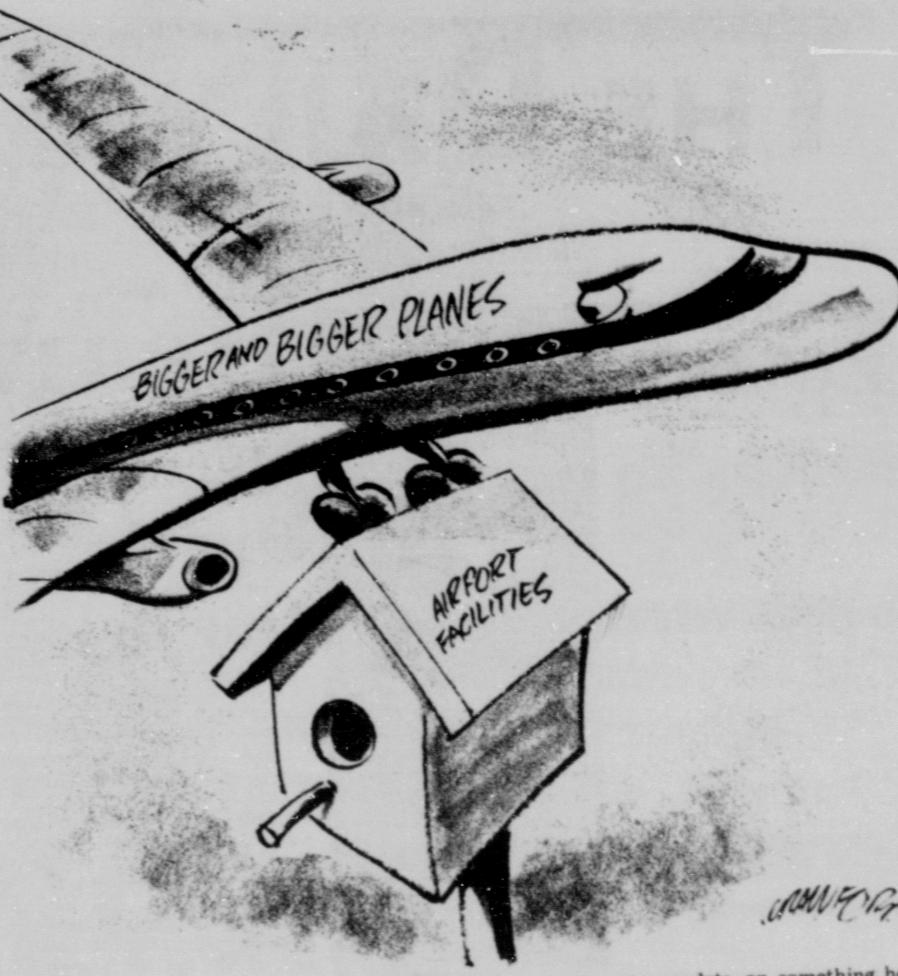

Help your firm get out of the red by using just one paper towel, instead of seven, when drying your face in the office washroom.

Agree to lick the stamps for your wife's Christmas cards if she'll agree to go on carrying out the garbage throughout the year.

Get the idea? Any good resolution you make and keep, no matter how small, can't help you to keep.

In fact, at least four brave pomegranates after midnight. To refrain from using any toothbrush at home unless you are particularly sure it is your

they cover, and who will do the work.

## The Smoking Thing... Ashtrays or No Ashtrays

Dear Ann Landers: Like millions of other decent, socially acceptable people, I smoke. Since I am a heavy smoker, I am vastly uncomfortable if I must go for over an hour without a cigarette. Your notion that people who do not want smoking in their homes should not put out ash trays is absurd.

My wife does not smoke, but she has a kidney problems. We would no more go to a home where smoking is not allowed than we would accept an invitation from a hostess who locks the bathroom so guests can't use it. In my opinion, the principle is the same. Please comment. — S.M.R.

Dear S.M.R.: Your analogy is picturesque, but the principle is not the same. A guest who used the lavatory in no way interferes with the comfort or the health of others.

I've never heard of a hostess who locked her bathroom so guests couldn't use. Have you? It seems to me that if such a hostess exists, she would stand to lose a lot more than if she set out no ash trays.

The next letter might interest you.

Dear Ann Landers: On a flight from Cincinnati To San Francisco, I was seated next to a middle aged woman. When the "No Smoking" sign was turned off, I asked my seat-mate if she would mind if I smoked. Her reply was, "I would prefer that you didn't." Her answer irritated me since I am a heavy smoker and felt she was interfering with my rights.

I pointed out that the airlines expect people to smoke which is why they have signs regulating smoking during takeoff and landing. She gave me a dirty look and snapped, "Well, you asked me and I told you!" I replied, "If my smoking bothers you, I suggest that you find another seat." She did.

I was pleased with the forthright manner in which I dealt with this inconsiderate female. Friends to whom I related the incident said I was wrong. What do you think? — American No. 47

Dear American: I think you behaved miserably. Your right to smoke ends where the other fellow's nose begins. When the woman let you know smoke bothers her, YOU should have found a seat next to another nicotine addict. The two of you could then hack and cough together all the way to San Francisco without offending anyone.

Dear Ann Landers: You must be made of stone. You tell every wronged husband or wife or daughter or son, sweetheart, friend or neighbor to "forgive and forget." Did it ever occur to you that some people just CAN'T? They are too deeply hurt — too badly damaged. Please pull your head out of the sand, or the clouds, or wherever it is, and use it to think with. It's preposterous to expect mere mortals to behave like saints. — Made The Scene

Dear Scene: For those who don't like my advice to forgive and forget, here's an alternative. Don't forgive and don't forget. Keep alive every agonizing, tortuous detail of the past. Talk about it. Dream about it. Cry a lot and feel sorry for yourself.

The family and friends of Mr. and Mrs. Ben Holt gathered at the New Savannah Baptist

church to celebrate their 50th wedding anniversary.

Although the couple were married in Alabama, they have made Missouri their home. Mr. and Mrs. Holt had seven children, six of whom are living.

Four of the Holt's children, twelve grandchildren and three great-grandchildren were present for the celebration.

Those of the family who gathered to honor the couple were Mr. and Mrs. Ed Holt, Kathy and Dale of St. Louis; Mr. and Mrs. J. B. Holt, Dona and Tammy of Benton; Mr. and Mrs. Troy Starkey and Bernice, Janice, Jack and Carl of Bloomfield; Earl Holt of Sikeston; Mr. and Mrs. James Heavener, Kelly and Curtis of Sikeston; Mr. and Mrs. Don Strieler and LeAnn of Benton; Mrs. Selena Bureas and Mrs. Mary Grubbs of Bloomfield.

The couple were presented with many gifts, including a "gold money tree."

Some others who were present were the Rev. and Mrs. Noah Cox, Mr. and Mrs. Charles Lentz and children, Mr. and Mrs. Clyde Lyn Jr. and Mike, Mr. and Mrs. Audie Sneed, Mrs. Glenda Hardin, Billy Walker, and Mr. and Mrs. Roy Evans.

One daughter, Mrs. George Heavener of Marston, and son, Kirby Holt were unable to attend.

## Mr. and Mrs. Beggs Mr. & Mrs. Beck Social Calendar Charleston WMU

### Tour Gulf Region

Mr. and Mrs. W. A. Beggs of Blodgett spent Christmas with Mrs. Beggs' sister, Mrs. George Gilmore, and brother, Bill Dunn, and their families in Cocoa, Fla. Mr. and Mrs. Bill Foits of Flint, Mich., accompanied the Beggs on their trip. Mrs. Foits is a sister to Mrs. Beggs.

The 11 day trip included visits to Silver Springs, Cypress Gardens, Busch Gardens, Cape Kennedy and a return trip through New Orleans on New Year's Day.

Mrs. Beggs' mother, Mrs. Alleyne Dunn of Flint, Mich., was in Florida with the family for Christmas. She plans to spend the winter there.

Prized as Delicacy Guinea pigs were once prized for their delicacy as a meat in Europe and by the Indians in parts of South America, according to Encyclopedia Britannica.

Ann Landers will be glad to help you with your problems. Send them to her in care of this newspaper, enclosing a self addressed, stamped envelope.

The Odd Fellows and Rebekah Lodges of Sikeston presented their annual joint installations of officers at 8 p.m. Sister Marilyn Jo Evans, District Deputy President, installing officer for Rebekah Lodge. Brother Herb Bradham, District Deputy President, installing officer for Odd Fellow Lodge.

All members formal. Family and friends invited. Ladies bring covered dish for potluck to follow ceremony.

Following the meeting, refreshments were served by Mrs. Baber and Mrs. Ruth Lee.

MEADOW LANE GARDEN CLUB met Monday afternoon in the home of Mrs. Buford Baber with fourteen members present and three guests, Mrs. Del Harbin, Mrs. Charlotte Bailey and Mrs. Martha Graff.

Mrs. L. A. Schuerenberg, president, presided during the business session.

It was reported two tricycles had been presented to the children at the Diagnostic Clinic.

They were purchased with thymoney the club collected at their December meeting.

Mrs. Baber, who was in charge of the program on "Decoupage", gave an

instructional session and displayed many samples of work done by different people.

Following the meeting,

refreshments were served by

Mrs. Baber and Mrs. Ruth Lee.

THURSDAY

OES chapter No. 137 will

meet at 7:30 p.m. in the

Masonic Temple.

THURSDAY

Duplicate Bridge will meet at

7 p.m. in the Ramada Inn.

THURSDAY

The Odd Fellows and

Rebekah Lodges of Sikeston

held their annual joint

installations of officers at 8 p.m.

Sister Marilyn Jo Evans, District

Deputy President, installing

officer for Rebekah Lodge.

Brother Herb Bradham, District

Deputy President, installing

All members formal. Family

and friends invited. Ladies

bring covered dish for potluck to

follow ceremony.

MONDAY

The Executive Committee of

Southeast School PTA will meet

in the home of Mrs. Dale Webb,

2014 Kentucky Road, 7:30.

THURSDAY

Charleston Baptist

Association's WMU will meet,

the day meeting begins at 10:00

and concludes with the noon

potluck meal at First Baptist

Church, Morehouse. The night

meeting is at 7:30 at Fellowship

Baptist Church, 228 Missouri,

Sikeston. Miss Miriam Misner,

missionary to Indonesia, will

speak at both meetings.

THURSDAY

The American Legion

Auxiliary will not meet as

scheduled, due to inclement

weather, and illness among the

families of members.

Same Birthday

The age of any horse is

calculated from Jan. 1, regard-

less of the time of year it was

actually born. A foal

becomes a yearling on the

Jan. 1 after its birth and

adds a year to its age every

following Jan. 1.

DESIGN IDEAS

• No longer do children

and light-colored uphol-

stery have to avoid each

other. With the new

man-made fabrics now

on the market, you can

indulge your taste for

damask, linen or what-

ever pleases your fancy.

All kinds of textures

and patterns are avail-

able in easy care syn-

thetic upholsteries.

• Dark blue walls, per-

haps in a floral wallpaper

with touches of lighter

blue and cream, make a

lovely background for a

walnut bedroom suite.

The whole would be perfect

for that teen-age girl in

your home.

• Let the room express

the personality! When

you are decorating a

room for your son or

daughter, take his or

her hobbies into con-

sideration.

Those of the family who

gathered to honor the couple

were Mr. and Mrs. Ed Holt,

## Campbell Checks Jones, But Loses To Chargers

**SENATH** - Tournament deficit. The inexperienced and action got underway last night as younger Lions couldn't control the opening rounds in the or cool off the Rebel scoring. Senath - Hornersville Invitational attack as four Rebs hit in double tournament saw the number one figures. Outside shooting was and four seeded teams gaining the downfall of the Lions was the opening victories. The Delta they connected for only 12 field C-7 Chargers, seeded first in the goals to Southland's 22.

tourney, rolled past a Randy Smith lead the Rebel impressive Campbell squad attack with 15 points, as 61-54, to earn a quarter - final additional double figure scorers bout with Southland, who were Waites with 13, and Cude and Lambert with 12 each. The with a 63-45 win over Senath. Rebs record now stands at 9-4, Hornersville.

The Charger's All - The Soanth - Hornersville Conference forward, Charles Jones, was checked by the double figures, but managed to Campbell defense, as the place 11 players in scoring. previous team scoring leader Freshman Barry Harris lead in managed to hit only six pointers. The slack was taken up though, First round action continues as his teammates hit nearly fifty tonight at North Pemiscot meets percent from the field and Hayti, North in a 6:30 p.m. added 13 free tosses. The game, while South Pemiscot will camels, despite a not so clash with Risco in the later 8 p.m. contest.

Southland 15 18 14 16-63  
Senath 5 14 8 8-45

WHILE THIS picture doesn't look too warm, trout fishing in general is red hot in Missouri. Anglers are awaiting the March 1 opening in the trout parks. Fishing in streams and Lake Taneycomo is open year-round to those with a \$3 trout stamp, now available from the Department of Conservation. (Department of Conservation photo)

## Galvanized Ganders

By JOEL M. VANCE

If all Canada geese were as successful at nesting as washtubs to trees, stumps or posts set above the water at Missouri's Giant Canada tub nesters, we'd all freeze to death at Trimble. For two seasons nothing happened, but then some smart lady goose got to thinking and from that moment on the idea snowballed.

Maybe that's an overstatement, but the Giant Canadas, currently in residence in a number of Missouri fishing and waterfowl areas, doing just fine, thank you, in their galvanized penthouse apartments.

The whole idea started 20 years ago when the late Paul Tulenko, then game chief for the Department of Conservation, and his successor, the late Charles (Ted) Shanks, wondered if Canada geese couldn't be induced to nest in Missouri. The work presently being carried on by Richard Vaught.

The Giant Canada or, to give it its Latin name, "Branta canadensis maxima" was thought to be extinct at one time, but remnants of the great birds (which weigh at least a third again as much as the Canada goose species hunted annually at Swan Lake) were located mixed in with other types of Canadian geese.

The Department bought 24 of the big birds from a long-established private flock in 1952 and in 1958 the tub program started. The Giant Canadas have been barely maintaining themselves at Trimble Wildlife Area, hindered because of predation on eggs.

In 1956, the Department goose hunting at Trimble and started nailing ordinary Schell - Osage and Duck Creek, but no Canada geese hunting.

There's nothing to prevent a hunter from downing one of the big birds outside the refuge areas, but few of the geese stray very far from home.

Geese normally are thought of as ground nesters and they are in the Canadian barrens where there isn't much else but ground. In Missouri, the birds readily accept elevated nests. Some geese have adopted osprey nests and goslings have fallen 80 feet out of nests onto a gravelled stream bank without damage.

Many Canada geese will not nest in latitudes as low as Missouri. But the Giant Canadas seem to like it here. The Canada goose population which Missouri hunters see each fall nests on the southwest shore of Hudson Bay, Canada.

## Sports Corner

By Ron Jaynes  
Sports Editor

N. P. McDaniels, head basketball coach at Sikeston high school, has announced plans for a three-hour basketball clinic at the field house each Saturday for residents of the Sikeston school district in grades four through eight.

Basic basketball skills will be taught to those attending by the SHS coaching staff.

Registration will be at 9 a.m. Saturday.

Times have changed. That phrase is never out-dated as they surely have, especially in the field of sports.

One big factor is the number of out-door basketball goals un-occupied. In recent year's one could drive through virtually any neighborhood and see a number of youth's shooting, but how many can you see today? . . . very few.

This might not be the time of the year to discuss this matter, but the number of goals in backyards also has dwindled over the years.

We just wonder if the youth of today are just too lazy to get out for a few goals.

Basketball has long been one of Southeast Missouri's biggest sports, but the caliber of players is going down.

A recent ad read, "basketball goal and backboard reduced for Christmas sale." We just wonder how many were sold . . . if any.

The same holds true for youth's playing baseball and football. We haven't

noticed as many football games being played as in the past and we haven't seen too many boys working at their baseball in the summer.

Maybe we haven't been around in the right places or at the right time . . . but, we hope that's right.

Sikeston high school is sending out questionnaires to area schools about hosting an annual Christmas tournament at

**District Results**

### INDIANS WIN

PERRYVILLE - It was a come from behind victory for the St. Vincent Indians last night as it defeated St. Genevieve in a squeaker, 49-47. The junior varsity match went to St. Genevieve as they won the earlier game, 49-31.

In a close game that went all the way down to the last few minutes of the game, St. Vincents fought off a final St. Genevieve march to come out with the two point Victory.

Mike Wingert lead the Indians in their win, as he popped in 17 points. Jim Moll added to the total as he managed 11, with teammate Schnerrbusch not far behind with 10.

Mike Williams and Ron Bollinger each hit 10 last night, in the Ste. Genevieve cause.

In St. Genevieve's 49-31 JV victory, Armbruster lead in scoring with 14. Cooper hit 8 in the St. Vincent's JV loss.

Scoring:  
ST. VINCENTS (49)  
Wingert 17, Hurst 3, Moll 11, Saur 7, Schnerrbusch 10, Gremauld 1. Totals: FG-18; FT-13; PF-16.

ST. GENEVIEVE (47)  
Callahan 4, Holland 9, Thomas 2, Williams 10, Bollinger 10, Coffman 6, Bova 6. Totals: FG-16; FT-15; PF-17.

## Bernie Couple

Wins Annual

## Stork Derby

DEXTER - Mr. and Mrs. Joe Finch of Bernie are the winners of the "First Baby Contest" sponsored by the Dexter Statesman - Messenger and merchants.

A baby boy weighing 7 pounds 4 ounces was born to Mr. and Mrs. Finch January 1 at 5:37 p.m. at the Poe Clinic here. He has been named Frankie Fuson. Attending physician was Dr. Faud Kandalat.

The Finchers have one other child, a son, Joe Wayne Junior, who is two and a half.

Maternal grandfather is Frank Cunningham and paternal grandparents are Mr. and Mrs. Charles Finch of Bernie.

The father is an employee of Brown Shoe Company, Bernie, and the couple reside in the Bernie Housing Development, Apartment 310.

As the "First Baby" winner both the new arrival and his parents will enjoy a long list of prizes and gifts provided by participating merchants.

## \$800 Burglary

### At Kennett

KENNETT - Thieves broke into the Kennett Savings and Loan Co. Sunday afternoon or during the night, stealing \$800 in currency and a valuable coin collection consisting mostly of gold coins.

The burglary was discovered by William Jones, president of the firm, at 8 a.m.

Prying open the safe, thieves stole approximately \$800 in paper currency, including \$100, \$50 and assorted denominations of bills; approximately \$400 to \$500 worth of gold coins, which included five cent pieces, one dollar pieces, five dollar pieces and 20 dollar pieces; a bag of 75 pure silver dollars; and over 200 pieces of assorted foreign coins, value undetermined.

The coin collection was the property of Jones, who had been keeping it in the safe. The \$800 stolen belonged to the Kennett Savings and Loan.

Police Captain Bill Cox said the burglars bypassed an envelope of valuable old paper bills and an assortment of antique jewelry.

Investigating the burglary are police, sheriff's department, and the Missouri Highway Patrol. The Federal Bureau of Investigation has been called in to assist in the probe.

### No Change in

### FHA Interest

NEW MADRID - Richard T. Bartlett, New Madrid county supervisor of the Farmers Home Administration, said today the announced increase in interest rates from 7.5 to 8.5 per cent by the Federal Housing Administration and the Veterans Administration Tuesday did not affect FHA housing loans.

The interest rate of FHA, an agency of the U. S. department of agriculture, which makes rural housing and rural housing repair loans, remains at 6.25 per cent, which has been in effect six months, Bartlett said.

## POLLY'S POINTERS

### Cat Odor Problem

### No Problem for Them

By POLLY CRAMER

DEAR POLLY—I have a simple answer to M. B. K.'s cat-odor problem that worked for me. Tell her to buy two large boxes of baking soda and put it in small dishes to place under her couch, on tables and anywhere there is an odor. She may have to leave them there for several weeks and even change the supply of soda. In just a day or two, she should notice that the odor is starting to disappear. —DOROTHY

### Polly's Problem

DEAR POLLY—My six expensive, plastic tumblers are stuck together from being stacked when warm and a little damp. The hot and ice water treatment did not budge them. Could someone help me with a suggestion? —STUCK

DEAR POLLY—I hope some manufacturer of aerosol cans reads your column. I would like to tell them that people with poor eyesight cannot see the arrow which shows which way to spray if the arrow is white. One of my friends almost blinded herself because the arrow was so dim and she squirted the wrong way, toward her eyes. I think all these arrows should be red. —SHIRLEY

(Newspaper Enterprise Assn.)

## Trade Groups Called Program Threat

PORTRAGEVILLE — The United States cotton, and the outlook for a workable cotton plan for limitations on price program being enacted in 1970 support payments to individual leaders.

Hilton Bracey, cotton official of Midcontinent Farmers Association, explained that a coalition of trade-oriented groups was striving to eliminate the parity concept which now requires that price support payments when added to the loan level must reflect at least 65 percent of parity on production from the allowable acreage, reduce the 16 million acre national allotment on which payments to farmers are based, and switch the method of computing payments from projected yields to actual yields which would leave the farmer completely unprotected in times of natural disasters such as those experienced during the past few years.

In reply to questions from the floor, Bracey said he was convinced that current trends toward destruction of the United States cotton industry could be halted and reversed if enough members of Congress come to recognize the need for protecting cotton farm income from the ravages of the so-called one-price system being advocated by the trade-oriented groups. He urged that agribusiness leaders as well as farmers themselves let their elected representatives know that the trade-oriented groups, including some with the word "producer" in their titles, are not speaking for farmers when they advocate continuation of the so-called one-price system and elimination of the farm income protection provisions in the current cotton program.

Bracey said that the trade-oriented groups were trying to reduce the CCC loan level down to 18 cents per pound or about 2 cents per pound below current levels, eliminate the parity concept which now requires that price support payments when added to the loan level must reflect at least 65 percent of parity on production from the allowable acreage, reduce the 16 million acre national allotment on which payments to farmers are based, and switch the method of computing payments from projected yields to actual yields which would leave the farmer completely unprotected in times of natural disasters such as those experienced during the past few years.

In reviewing the operation of the so-called one-price system for cotton in effect for the past six years, Bracey said it has been a failure by any and every responsible measurement. He said that it has not accomplished a single objective that its trade-oriented proponents claimed would be accomplished. Instead,

of increasing cotton off-take and lowering costs of textile products to consumers, Bracey reported that use of cotton has dropped to the lowest level in over a decade and cost of textile products to consumers have Williams, both of East Prairie, climbed to an all-time high, were fined \$10 each and paid \$5. Furthermore, he noted, that the costs for public intoxication.

so-called one-price system was Ray Razor, East Prairie, was responsible for the some 50 fined \$10 and paid \$5 cost for

percent drop in export sales of peace disturbance.

### Three Fined

EAST PRAIRIE — Three

were fined a total of \$30 and paid \$15 in court costs Tuesday

in city court with Judge J. Marvin Bryan presiding.

Ernest Easley and Darrell Williams, both of East Prairie, products to consumers have Williams, both of East Prairie, climbed to an all-time high, were fined \$10 each and paid \$5. Furthermore, he noted, that the costs for public intoxication.

## Matthews News

MATTHEWS — E. M. Radcliffe and daughters, Misses Lynn and Ann, of Memphis, visited last Tuesday with his mother, Mrs. M. H. Radcliffe.

Mr. and Mrs. Roger Roberts of St. Louis spent the holidays here with Mr. and Mrs. Ralph Faries and Lila and Reggie Vandiver.

Mr. and Mrs. Bill Harris and children, Debbie and Scott, of Blytheville, Ark. visited here during the holidays with Mr. and Mrs. Clifton Harris, Ellis V. Reid, and daughter, Miss Donna Jo, and son Bill Reid.

Harold Burch was released Wednesday from Missouri Delta Hospital where he had been a medical patient.

Mr. and Mrs. Bob Alsup and daughters, Pamela and Carolyn, returned Friday to their home in Armory, Miss. after having visited several days with her parents, Mr. and Mrs. Dennis Parsons.

Mr. and Mrs. Herschel Yates and son, Marshall, of Washington, D. C., returned last weekend from New Brighton, Minn. where they had spent the Christmas holidays with Dr. and Mrs. Wilson Yates and children, Natasha and Stiles.

Dr. and Mrs. Clifford Nelson and daughter, Christina Leigh, returned to their home in Greenbelt, Md. Friday after having spent the holidays here with Mr. and Mrs. B. B. Conrad and son, Charles. Other guests for Christmas dinner of the Conrads were Mr. and Mrs. A. E. Stoen and daughters, Misses Carole and Jane, of Belleville, Ill., Wade D. Waters and son, Steven, of Bryan, Ohio; Mrs. L. D. Waters, and Mr. and Mrs. Wallace Waters.

Mr. and Mrs. Bill Wayne King daughter-in-law, Mrs. Jerry Gibson City, Ill. were guests accompanied them home and during the holidays of his returned there after the parents, Mr. and Mrs. Lester King and daughter, Brenda.

Lyle Proffer and David Bird and daughter, Darla Lynn, of Columbia were holiday guests of Mr. and Mrs. Lyle Bird, and sister, Linda.

## Mail Box

Dear Editor:

The U.S. is you and I, have no money available to give away to foreigners, and if Congress does pass the big foreign economic aid bill for \$2 1/2 billion (yes, billion), the U.S. Treasury will have to borrow all the money, mostly from the American people. This means higher taxes.

Mr. and Mrs. Hugh Rogers visited during the holidays with their parents, Mr. and Mrs. Dennis Parsons.

Mr. and Mrs. Michael Ford visited during the holidays with their parents, Mr. and Mrs. Lyman Whitten, and family. At the termination of this leave he will report to Fort Lewis, Wash. for further assignment. Mr. and Mrs. Danny Joe Whitten and daughter of Jonesboro, Ark. also visited with the Whittens last week.

Mr. and Mrs. David Schneider and daughter of Jonesboro, Ark. spent the holidays here with their parents, Mr. and Mrs. Joe Schneider and Mr. and Mrs. Horace McCoy.

Mrs. Cline T. Hope of Cape Girardeau was a weekend guest of Mr. and Mrs. Albert Sutton and daughter, Miss Louanna.

Mrs. Pearl Green and Mr. and Mrs. Tom Moore returned Friday from Columbus, Miss. where they had spent the holidays with Mrs. Louise Hudson and family.

Mr. and Mrs. Clifford Proffer of St. Louis were guests last weekend of her parents, Mr. and Mrs. F. E. Ratcliffe.

Mr. and Mrs. G. H. Jones and children, Debbie and Terry, were in St. Louis last week to attend funeral services for their

## Major Users of Water

### Must Report Consumption

BENTON — A new state law provided forms in January and February as an enclosure in the Missouri to report usage of annual chemical reports. Other major water users will be contacted directly by the Board, or they may obtain forms from the Water Resources Board, P. O. Box 271, Jefferson City, Missouri 65101.

The law is designed to establish a history of water use as a basis for projecting future water needs within the state. The law became effective Oct. 13, 1969.

All persons, firms, and corporations, and subdivisions which draw from ground or surface water sources more than 750,000 gallons in a year, are required to report. This amounts to 25,000 from both the Missouri and Mississippi Rivers has been proposed by Western interests. Such diversion would reduce the supply of water available for use in Missouri.

The State is taking part in a study to determine the availability of Lower Mississippi River water for transport to West Texas and New Mexico. Water originating in or flowing through Missouri will contribute to the diversion and it is essential that the State's future water supply requirements be

met. Coy McNabb, Extension Economist, said irrigators who are in doubt about whether to file a report should probably do so. In the years ahead establishing priority of use could be important. By reporting, an irrigator will be on record.

The Missouri Water Resources Board has prepared forms to be used for reporting. Those forms are available at University Extension Centers for use particularly by farm operators and agri-business industries. Municipalities and water companies will be

The Daily Standard  
January 8, 1970

established and protected as rapidly as possible.

## BARBS

By PHIL PASTORET

Those who truly wish to live to be 90 rarely drive over 60.

The average life of a coin is 25 years, due mainly to living from hand to hand.

The doctor can't do anything with that pain in our shoulder, and we haven't the nerve to ask the secretary to take the hatpin out of the wax doll on her desk.

A foot and his money are soon parted.

## KREY'S

# Old-Fashioned Southern Style Sausage

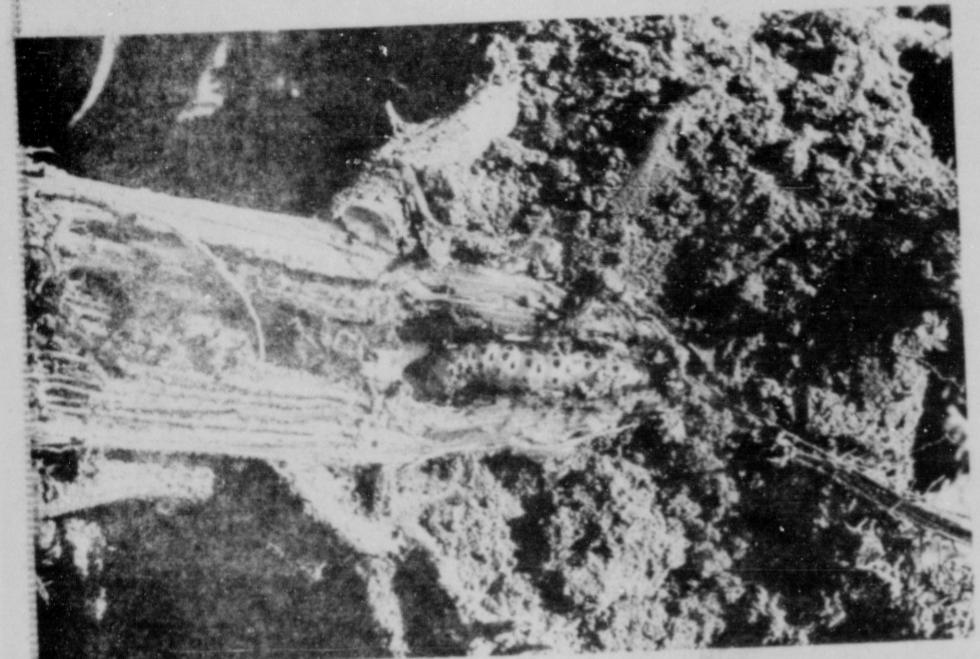

Dear Krey customers:

I don't know about you, but pork sausage has always been a breakfast favorite of mine; and so I was delighted, a few years back, to come across the best-tasting sausage I'd ever had. It was on a trip down south, and this sausage was southern-style all the way. It was spicy and peppery, with lots of zip. It took some doing, but I managed to get the recipe, which I brought back to the cooks at our Krey Kitchens. I can't let you in on all the secrets, but the accent is on freshly-crushed red peppers, sage, other exotic spices, and more lean meat than you're used to getting in sausage. We call it Krey Southern Brand Sausage, and we make it up the old-fashioned country way—in two

THIS CORNSTALK broke over after being girdled on the inside a couple of inches above the ground by the larva of a Southwestern corn borer. If the stalk breaks before harvest, the ear of corn drops to the ground.

A SOUTHWESTERN CORN BORER in its summer form was exposed by splitting a corn root. During the summer, the larva has black spots. After its last molt before going into hibernation, the larva is an off white or cream color.

## Corn Borer Causes

### 13 Per Cent Loss in Delta

COLUMBIA — The Stoddard County, Southwestern corn borer caused other county infestation in 1969. An estimated 1.8 million bushel reports were: Butler, 19.2 percent; Cape Girardeau, 18.6 percent; Dunklin, 14.8 percent; Pemiscot, 21.4 percent; and Scott, 28.4 percent.

2. Plant a strong stalked variety adapted to the area.
3. Fall disking will break up the root stubble and expose the borers to natural enemies and winter hardships.
4. Deep plowing before May 1 will prevent the moth emergence.

For chemical control, endrin is currently the only approved insecticide. Two applications of 0.3 to 0.4 pounds of endrin per acre are required.

The status of this chemical recommendation beyond 1970 is in doubt because endrin is a persistent chemical, the entomologists point out.

#### Bill Burlison

#### Says He Is

#### A Moderate

CAPE GIRARDEAU Characterizing himself as a moderate, 10th District Congressman Bill Burlison said Monday night that there is very little to distinguish left wing extremist groups from their counterparts on the right.

Both types of extremists differ from reformers in that they seek not to reform the system, but to wreck it," Rep. Burlison told an audience of about 100 persons, mostly students, in Academic Hall at State College.

He added that revolutionary groups may be well-equipped to

RALPH MUNSON, extension survey entomologist from the University of Missouri in Columbia, finds another overwintering Southwestern corn borer when he splits a corn tap root. Munson conducted a survey of corn fields in eight Delta counties to determine the economic loss from the borer.

tear down, but are usually not posture.

He said his votes in favor of outfitting to rebuild what they have torn down.

"There are better ways in a than President Nixon had

democracy to get change," he said. "Our founding fathers anti-ballistic missile system were

institutionalized change in the described as liberal. On the other

hand, his votes in favor of the tax reform bill and against a simple extension of the 1965 voting rights act were considered

conservative.

The public meeting was

sponsored by Phi Gamma Nu, a

professional business sorority at

the college. Rep. Burlison's topic

was "Moderation: A Theme for

Our Time."

The first term congressman

had been scheduled to talk on

recent federal legislation

affecting business, but he

"begged off, indicating he had

been unable to narrow the topic

described as liberal. On the other

hand, his votes in favor of the

tax reform bill and against a

simple extension of the 1965

voting rights act were considered

conservative.

Rep. Burlison said he

considers the job of Congress

"to know when to apply the

spur and when to apply the

bride." He added that he

considers that his role as the

10th District representative is to

serve the majority of the people

while at the same time not

compromising his own "basic

principles and convictions."

The former prosecuting

attorney of Cape County cited

various votes he made during the

1969 session of Congress as

evidence of his moderate he favors lowering the voting

SOUTHWESTERN CORN BORER larva has burrowed to the bottom of a corn tap root in preparation for overwintering. In its winter phase the larva, which is about 1 1/4 inch long is an off white or cream color. Larva found in the corn stalks during the summer are white with black spots. The root was split to expose the borer for the photograph.

age, has not been too conscious of the pollution problem since his district is a rural one that has

Steven Wayne Oakley paid a \$25 fine and \$15 costs on a charge of illegal possession of alcoholic beverage. A charge of supplying alcoholic beverages to minors was dismissed.

Judgement was found for the plaintiff, Key Loan Co. to recover from defendant, Lindsey Stockman, \$355 with interest rate of 2.218% per month from date of judgment, together with costs of \$10, in a promissory note suit.

## The Prayer from The Upper Room

Blessed are the peacemakers: for they shall be called the children of God. (Matthew 5:9) PRAYER. O God, teach us to love others as You have loved us, so we may all be peacemakers. Here our cry or peace, and help us to be better instruments in creating it. Through Christ, Amen.

Jaycees Will  
Sponsor Dance

### If You Were the Judge

## Woman Trips Over Leash, Bank Blameless

By Jack Strauss, LL.B.

Frugal Frieda made her weekly visit to the bank. While she kept a weathered eye on the teller as he entered her deposit, a blind customer took his place in line behind her. He waited patiently as his seeing - eye dog reposed gracefully on the floor beside him. Before long, however, the perplexed dog had company on the floor. As Frieda turned to leave the teller's cage, she tripped over the dog's leash, held by the blind customer, and ended up lying helter-skelter next to the puzzled dog.

Counting up her injuries, Frieda sued the bank for damages. "Since the blind man couldn't see to warn me of his presence," complained Frieda in court, "the bank had a duty to make sure no one fell over the leash. What's more," she added "it was pure carelessness to have permitted the dog in the bank in the first place."

"Why?" queried a bank official. "Frieda fell over the dog. The dog didn't fall over her. If anyone was out of line, it was Frieda and not the frightened dog."

IF YOU WERE THE JUDGE, would you make the bank pay Frieda for her injuries?

This is how the judge ruled: NO! The judge held that liability for negligence is based upon a risk that is foreseeable and which can be anticipated. Every possible accident due to an unusual and an unforeseeable combination of circumstances is not included. Reasonable foresight is required, not prophetic vision. In this case, concluded the judge, it was not foreseeable that a woman with normal vision would trip over the leash of a seeing - eye dog lying quietly by its owner.

(Based upon a 1969 New York Supreme Court, A.D., Decision)

On Christmas Day of 1855, the Royal Canadian Rifles, stationed in Kingston, Ont., cleared snow from the harbor, tied skates to boots, borrowed field-hockey sticks and an old lacrosse ball and began a new game—hockey on ice.

## Cairo Pump Project Okayed By Engineers

CAIRO — Peyton Berbling, attorney for the Cairo drainage district, received information Monday that the Cairo and vicinity pumping project as planned by the Corps of Engineers of the Memphis District has been approved by the Chief of Engineers of the United States Army. In accordance with the Flood Control Act of 1968, the pump project for Cairo and vicinity now becomes a fully authorized project.

Berbling stated that this has been a long time coming since it was first instituted and proposed by him and the late Mayor Egbert A. Smith.

Under the proposed plan the pumps of the City of Cairo and the Goose Pond Pump of the Cairo Drainage District will be completely rebuilt and modernized. It is expected that the cost of the project will be approximately \$1.5 million which will be paid for by the Federal Government.

And as the many participants of the "We Care" project enjoy the evening, no doubt some will be thinking "I'll have this dance for Mike."

## Today In U.S. History

By THE ASSOCIATED PRESS  
Today is Thursday, Jan. 8, the eighth day of 1970. There are 357 days left in the year.

Today's highlight in history:  
On this date in 1918, President Woodrow Wilson outlined 14 points for peace after World War I.

On this date:  
In 1642, the Italian astronomer Galileo died.

In 1679, the French explorer La Salle reached Niagara Falls.

In 1815, U.S. forces under Gen. Andrew Jackson defeated the British in the Battle of New Orleans at the end of the war of 1812.

In 1923, France began the military occupation of the Ruhr Valley in Germany.

In 1943, during World War II, American bombers pounded the Tunisian port of Bizerte.

In 1959, Premier Charles de Gaulle became president of France. Ten years ago -- The United States urged that the new U.N. committee on the peaceful uses of outer space begin meetings.

Five years ago -- Sen. Everett M. Dirksen of Illinois introduced a bill to make the marigold the national flower.

One year ago -- 81 Cubans shot their way through Cuban lines and found refuge at the U.S. naval base at Guantanamo Bay.

The cacao bean, used to make cocoa and chocolate products, was first discovered by the Spaniard Cortez when he entered Mexico in the early 16th century.

# State Park Visitors Top 14 Million

JEFFERSON CITY (AP) — Missouri's state parks drew 14,298,324 visitors, including 1,026,451 overnight campers, during 1969, the state Park Board reported today.

That was an increase of 13 per cent over the previous year. Joseph Jaeger, director of parks, predicted the increase would be 8 to 10 per cent this year despite the loss of three spring parks along the Current River.

Big Spring, Alley Spring and Round Spring parks were taken into Ozark National Scenic Riverways system Jan. 1. They were visited by 761,000 persons in their last year as state parks.

Parks that drew over 750,000 visitors included: Roaring River state Park near Cassville 1,904,980, Table Rock State Park in the Stone-Taney County area 1,390,703, Knob Noster in Johnson County 775,137, Lake of the Ozarks 756,467 and Meramec in Franklin County 754,945.

Parks that drew more than 100,000 campers included: Roaring River 106,069, Table Rock 103,896 and Lake of the Ozarks 103,263.

New Rock Bridge State Park in Boone County, still in the development stage, drew 144 overnight campers and 133,667 other visitors last year, the board reported.

## Son Needs Extra

Coaxing to Join Dad

## In Polar Bear Swim

MILWAUKEE (AP) — Garth D. Gaskey, 41, had to use extra coaxing Thursday to get his 16-year-old son to cross the final few feet of the generation gap.

Steven at last relented and joined his father, a member of the Polar Bear Club in the group's annual festivity of swimming in Lake Michigan on New Year's Day only in swim trunks.

The air temperature was in the low 20s, and the water was 35.

Eleven club members waded

in. The elder Gaskey swam about 100 yards out in the surf to chat with a dozen more-warmly attired members of a YMCA scuba diver club.

The Polar Bear Club has been at it without interruption since the 1920s. The temperature last New Year's Day was 10 degrees below zero.

## Floating Blocks Cut Evaporation

## In Stock Ponds

WASHINGTON (AP) — Agriculture Department scientists have developed floating concrete blocks to help reduce water evaporation from stock ponds.

The blocks reduce the water surface exposed to dry, moisture-sucking winds and yet permit cattle and other livestock to nudge them aside while drinking.

Research on the blocks was conducted by Keith Cooley, Agricultural Research Service meteorologist at Phoenix, Ariz. He made the blocks light enough to float by using perlite — a volcanic substance — instead of sand or gravel as the aggregate mixture.

Cooley said, however, other lightweight materials show promise as evaporation retardants, particularly in the arid southwest where much water is lost to the atmosphere.

Costs for hauling water to livestock in the southwest range from about \$4 per 1,000 gallons to around \$10, while evaporation control can be \$1.50 or less, the department said.

Cooley reported that wax performed the best thus far when sprayed in molten form onto the water surface. The wax formed discs six to eight inches in diameter and about one inch thick.

Results varied, Cooley reported, but the wax method cut evaporation 100 per cent for the area of water covered. Thus if half the tank or pond were covered, evaporation would be reduced by 50 per cent.

Loose perlite, not included in concrete blocks, also was sprinkled directly onto the water. During one eight-month test in Arizona evaporation was reduced 20 per cent, Cooley reported.

# OBITUARIES

## CARRELL EDMONDSON

ST. LOUIS — Carrell Louis Edmondson, 47, former resident of Sikeston and a driver for Laclede Cab Company, died Tuesday at 5:45 p.m. in a St. Louis hospital.

He was born in Sikeston Feb. 20, 1922.

Surviving are his wife, Mrs. Madonna Edmondson, St. Louis; one stepson, Gerald Peace, with the navy in Albany, Ga.; three brothers, Dale, Lindel and Earl Edmondson, all of St. Louis; one sister, Mrs. Frances Sizemore, Poplar Bluff; and one granddaughter.

Burial was in Old Morley cemetery at Morley.

Pallbearers were Jerry Evans, Gary Evans, Jack Evans, Ricky Evans, David Dumey and Stephen Diebold.

Evans died Monday night in a Cape Girardeau hospital after a short illness.

Bispinghoff Funeral Home at Benton was in charge.

## ELLEN HURD

MALDEN — Services for Mrs. Ellen Irene Hurd, 69, were Tuesday afternoon at the Church of God in Portageville.

The Rev. Tom Smith, pastor officiated, and burial was in the Portageville cemetery with Boyc officiating.

Mrs. Hurd, a resident of Malden three years, died Sunday morning at her home at 806 N Kimball. A resident of Oley.

Mrs. Hurd was born in 1905 at Portageville, daughter of R. A. and Connie Young Long, and in 1923 was married to Charlie Frank Hurd Sr. She was a member of the Church of God.

Other than her husband, she is survived by four daughters, Mary Young and Peggy Jasper of St. Louis, Betty Young of Cleveland, Ohio and Jean Toc of Mattoon, Ill.; two sons, Charlie F. of Escanaba, Mich., and James P. of Musell Shoals, Ala.; two stepsons, Wilbur of Thermal, Calif., and Sedgewich of Beaverton, Ore.; one step-daughter, Thelma Sutherland of Pocahontas, Ark.; five sisters, three brothers; and 13 grandchildren.

Robins was a member of the New Hope General Baptist Church.

The funeral will be in Morgan Funeral Chapel, the burial will be in the Morgan Memorial Gardens. Friends may call after 5 p.m. Thursday.

## Grain Market

CHICAGO (AP) — Soybean and grain futures prices were mostly higher in active early dealings today.

Wheat is 1/4 cent a bushel lower to 1/8 higher, March 14. 7/8 corn was 1/8 to 1/2 higher, March 12. 1/2; oats were 1/8 lower to 1/8 higher, March 6. 7/8 cents; rye was unchanged to 1/2 higher, March 13. 1/4 and soybeans were 1/4 to 1/2 higher, January 2.49 1/2.

Measurements of the Leaning Tower of Pisa show it to be 16 to 17 feet off center. It has tipped one foot during the last 100 years.

Q—What is the official language of Austria?

A—German is the language used by more than 95 out of every 100 Austrians.

Q—What is the nation's most popular state tree?

A—The pine, state tree of 10 states.

Q—Are any mammals toothless?

A—Yes. The sloth, found only in Central and South America, is an edentate mammal.

POPLAR BLUFF — An adult evening course in business and practical law will be offered the second semester by the technical division of Three Rivers Junior College.

The classes will meet at 7 p.m. each Monday in Room B at the technical building. The instructor again will be Jasper Edmundson, a Poplar Bluff lawyer. Each session will last for two hours.

Registration for the course will be from 6:30 p.m. to 8 p.m. January 23 in the gymnasium at the college building. Students who miss the regular enrollment may register at the office of the dean of technical education before the start of classes January 26 or at the first regular class session.

Two semester hours of credit will be given, but the credit may not be applied to a certificate or degree from TRJC. Registration for credits is limited to high school graduates or persons with equivalent credentials. Others may audit the course without receiving credit at the same charge paid by those regularly enrolled.

Fees for residents of the college district (Butler, Carter, Ripley, and Wayne counties) will be \$4.50 for each credit hour. Fees for residents of Missouri outside the district will be \$13.75 per credit hour. Textbooks may be purchased at the college bookstore. Those intending to enroll for credit should complete an official application and submit a transcript of high school and other credits before registration. Those wishing to audit the course for no credit should submit the application blanks only.

## Extension

## Council Vote

## Coming Up

NEW MADRID — An election to fill five positions on the New Madrid county University of Missouri extension council will be held the week of Jan. 19, announces Alan Littell, chairman.

University of Missouri extension council will be held the week of Jan. 19, announces Alan Littell, chairman.

Two positions are opened for district I which consists of New Madrid, West, Big Prairie, Hough and St. John townships. Three positions are opened for district II, which includes Como, Lewis, LaFont, Lesier, Portage and Anderson townships.

BLOOMFIELD — Stoddard County Circuit Judge Wm. H. Billings Monday ruled that Sneed's Danceland near Dexter, the scene of a shooting the morning of Nov. 30, was a public nuisance and ordered its closing indefinitely.

The council is responsible for the guidance and administration of all Extension programs. Conducted within the County, it is composed of five elected members from each of the two Districts in the County. The boundaries of those Districts are the same as those which compose county court districts.

In addition, there are six appointed positions which are named by the County Court, City of New Madrid, Missouri Cotton Producers Association, the New Madrid County Farm Bureau, National Farmers Organization, and Missouri Farmers Association.

Eligible voters will receive ballots by mail for their selection.

In addition, should someone be left off the list receiving ballots, additional ballots may be obtained from present council members. These include: District I - Randolph Kem, Matthews, Mrs. Charles Daniels and Richard Whiffen also Matthews, Rance Perkins, Route 1, Catron, Mrs. J. R. Boyer Kewanee, Charles LaValle, Arline Avery and Paul Bradley, New Madrid; District II - Mrs. Ruth Ellen Gee, and Tom Ruth, Mulberry, Dexter, Mo., is serving aboard the guided missile destroyer USS Henry B. Wilson off the coast of Vietnam.

The Wilson was recently involved in a coordinated gunfire support and underway replenishment operation.

Batteries from the San Diego-based ship fired in support of Allied positions ashore while the ship was being replenished, completing two jobs in the time ordinarily required for one.

Candidates were introduced by Bill Edwards, Chairman of the Deacon Council and the significance of the award was discussed by the pastor, the Rev. Marshall E. Dark.

Congratulatory messages were

DEXTON — Three Girl Scouts and ten Boy Scouts received their God and Community and God and Country awards, respectively, in services at the First Baptist church.

Opening preliminaries included co-gregational singing followed by the Pledge of Allegiance to the flag led by Walter Johnson.

The Wilson was recently involved in a coordinated gunfire support and underway replenishment operation.

Batteries from the San Diego-based ship fired in support of Allied positions ashore while the ship was being replenished, completing two jobs in the time ordinarily required for one.

These prices were provided at approximately 12 noon today by Merrill Lynch, Pierce, Fenner & Smith, 515 Olive St., St. Louis, Mo. You can call TOLL FREE for quotes or other information by dialing 1-800-392-3430.

## Motel Robbed By Pair

The Holiday Inn was held up today at 2:25 a.m. by two Negroes, \$23 taken from the cash register and a wrist watch from Assistant Manager Dean Childers, the highway patrol said today.

Both men were believed to be 23, five feet, eight inches tall. One of the men was wearing a grey overcoat and a black mask over his face, while the other wore a brown jacket with a multicolored mask. One carried a .410 gauge shotgun.

The men left in a blue 1968 Mustang, according to an eye-witness, and the car was parked too far away from the motel entrance for him to read the license number, the patrol said.

## Employee Of Mill Found Dead

Scott County Coroner Gene Nunnelee reported an autopsy will be performed this afternoon to determine the cause of death of Willie James Allen, 54, 1701 Washington.

Allen was found dead this morning in a seed room at the Cotton Oil Mill, where he was employed.

The coroner said there was no evidence of foul play.

Allen was reported missing by his wife about 6 a.m., the time he normally returns home from work.

His body was found partially covered with seed by fellow employees about 8:30 a.m.

Nunnelee said the autopsy is to ascertain the cause of death, whether from suffocation, heart failure or other.

## Four Sentenced And Placed On Parole

NEW MADRID — Four were sentenced on criminal charges in circuit court Wednesday after entering guilty pleas; two changes of venue were granted in criminal cases and 12 criminal charges were dismissed.

Judge William L. Ragland presided.

Larry Jim Blasingim and Robert Moreland were each sentenced to four years in the department of corrections and were granted parole under supervision. The pair were charged with grand larceny in connection with the theft Nov. 15 of an automobile belonging to Arie F. Hayes.

Charles A. Sissom was granted probation with supervision after receiving a three year sentence for grand larceny. He was charged with stealing \$139.35 November 23 from the Busy-Bee Shell Station at Kewanee.

Probation under supervision was granted George Lee King after he entered a plea of guilty to a third offense of driving while intoxicated and was sentenced to two years in the department of corrections.

Jimmy Clay, charged with possession of stolen property, was granted a change of venue to Pemiscot County. A change of venue to Mississippi county was granted Dean O. Martin, charged with possession of stolen property.

Criminal charges dismissed included Eugene Robinson, felonious assault; John L. Jones, burglary and larceny; Homer Owens and Ronnie Lawrence, burglary and larceny; Coy Sauls, manslaughter by an automobile; Terry Hicks, breaking and entering; Alton Jackson and Bobby Bramlett, aiding and abetting.

Jimmy Barber, burglary and larceny; Robert Charles Wright, jailbreak; Howard Moran, burglary and larceny; Joe Reed, felonious stealing; Fred Grant, felonious assault; and George Lee King, driving while intoxicated, fourth offense.

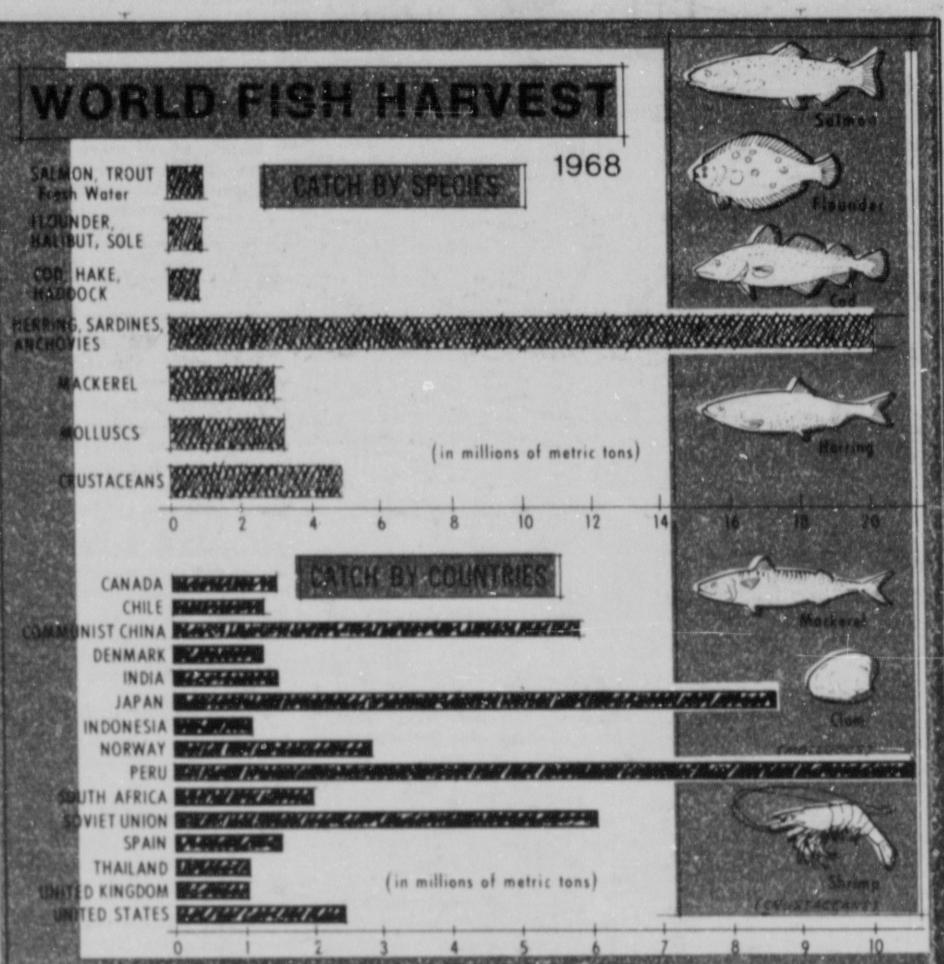

## Drainage District Annual Meeting Set for Monday

G. B. Greer, board president of the Richland Drainage District of Scott and New Madrid counties, announced the annual landowners meeting will be held at 10 a.m. Monday in the basement of the Production Credit Association building.

Harrison Tanner's term on the board has expired and a director will be elected to fill this post.

Other board members are Bill Gemeinhardt, Willard Sanders and Emil Shubhart.

Tharon Stallings is secretary-treasurer.

## Record Fish Harvest

UNITED NATIONS, N.Y. octopuses, mussels and sperm in the southwest Atlantic (AP) — The world continues whales increased. Among the year after year to harvest record classifications registering declines were oysters and clams, fresh waters of its rivers and partly because 1967 was an unusually good year for both.

Figures just published by the Food and Agricultural Organization show not only that Peru again topped the list with a record catch of 10,520,300 metric tons. Almost the 1968 catch set a new high but that the upward climb has been steady for the past 10 years.

The total for last year was 64 million metric tons, compared to 60,700,000 metric tons in 1967 and 33,200,000 metric tons in 1958.

The FAO Yearbook of Fishery Statistics also shows that increases took place in almost every category from the popular cod and haddock to such gourmet types as lobsters, shrimp and prawns.

Even the catch of turtles, were recorded. However, catches

dropped from 1,300,000 tons in 1967 to 800,000 tons last year, because of decreased fishing

there by the Soviet Union. In 1968 there was a levelling off of catches in the northeast Atlantic and Indian Ocean. Catches in the Mediterranean also remained approximately at the same level as for the past five years.

Almost a third of the total 1968 catch consisted of Peruvian anchoveta, sardine, pilchards, North Atlantic herring and oil sardines. Catches of mackerel reached a record level and did cod, hakes and haddock.

The total catch for 1968 includes 7,400,000 tons from rivers, lakes and other inland waters — an increase of 100,000 tons. The ocean catch of 56,600,000 tons — up from 53,400,000 tons in 1967 — covers all fish, crustaceans, mussels and other marine animals.

The appointments are effective Friday.

### Cow Has 8th Set of Calves

MORLEY — Robert Nelson, farmer near here, has a cow that gave birth to twin calves Christmas eve, and the eighth set of twins. The cow now has

water heater and burned through the floor and caught the insulation on fire.

There was minor damage.

At 9:45 a.m. today firemen went to Patrick's Coal Shed in an alley behind Locust Street to extinguish a blaze. There was minor damage.

Today at 9:50 a.m., firemen went to 213 Vine St., the home of Mrs. Inez Hollands, to extinguish a fire that started from an overheated coal stove. Damage was done to the ceiling around the flu.

The store manager is the father-in-law of Tom Gilmore of Sikeston, Scott county prosecutor.

The theft of a 1958 Chevrolet station wagon reported to Sheriff Ivan McLain, a block from the store, the same night is believed to have been connected with the robbery.

SAIGON (AP) — President

Nguyen Van Thieu called on his nation to unite against the enemy and said "political sorcerers" are trying to lead the South Vietnamese astray.

Thieu told a radio and television audience that the Viet Cong and North Vietnamese are stubbornly demanding unconditional withdrawal of U.S. forces and establishment of a coalition government in the South.

Thieu sharply criticized unnamed politicians in nationalist ranks who "help the Communists by advocating a third force" or a coalition government which he said would lead to a takeover.

But he charged that the enemy is intent on "savage ambitions" and insists on imposing a coalition government

Sen. Tran Van Don and on Saigon.

Thieu said there have been "no results" from 48 sessions of the Paris peace talks and said the North Vietnamese and Viet Cong agreed to them only because they wanted bombing of North Vietnam halted.

The nights will be Monday and Thursday beginning tonight. The city is paying the electric costs. The school will furnish supervision.

"We would like to encourage adults, both men and women, as well as students to take advantage of the activities," Sherman said.

Activities include half-court basketball, volleyball, table tennis, weight training for adults only and jogging. Everyone must wear tennis shoes. There are lockers available, but locks are not.

Shower facilities will be available at 8:40 p.m.

## Field House To Be Open To Public

EAST PRAIRIE — C. J. Stancil, route one, announced today for the office of presiding judge of the Mississippi county court. The primary election will be Aug. 4.

Stancil, who is 58, and his wife, Lorene, live on their farm in the Dogwood community, where he has farmed since 1942. They have one daughter, Mrs. Jerry Greenwood, also of the Dogwood community.

Stancil has been active in church work all his life. He is a member of the Kiwanis club in Charleston. He has held positions with the county Agricultural Stabilization Conservation Service office 25 years, and most recently with the Missouri state office for eight years.

If elected, Stancil says he feels he is qualified to fulfill the duties of this office, and promises to devote the time to perform his duties efficiently.

The Kansas City Chiefs will meet the Minnesota Vikings in the New Orleans game.

In a telegram to Gov. Harold Levander, Stancil said:

"Since my trip to the Orange Bowl did not produce the desired results, Lt. Gov. William S. Morris of Kansas City will represent me at the Super Bowl in New Orleans."

Morris stayed in Missouri as acting governor while Hearnes attended the Orange Bowl Jan. 1 between the University of Missouri and Pennsylvania State. Penn State won 10-8.

"Counting on a better turn of events this time," Hearnes wired Levander, "I will back up my faith in the Chiefs with the offer of two dozen Kansas City steaks, the world's finest strip sirloin steaks, in the unlikely event they should not win the game."

No one was injured.

A Frisco Railroad train engine was derailed last night on a spur line near the Scott County Milling Company.

Snow covered tracks were created with causing the derailment. The engine went about 12 feet off the tracks.

Railroad employees worked throughout the night to get the engine back on the track.

The manager of the compress

B. B. McCaig, made an appeal to the public for aid to the distressed family, who are

making their temporary home at 324 North Petty. Clothing and furniture can be taken there.

Train Engine Jumps Track

Snow covered tracks were created with causing the derailment. The engine went about 12 feet off the tracks.

Railroad employees worked throughout the night to get the engine back on the track.

No one was injured.

## Hearnes Recalls Legislature

### Mercury Tom Marshall Choice of Session To Open Jan. 19

Marshall withdrew from nomination before balloting.

The balloting lasted 20 minutes. It was reported Ferrell came in second. A majority of the 14 committee members present was needed for nomination. Two were absent.

Prior to the nominations chairman Bill Lewis instructed the committee proxy votes would not be counted because of Governor Hearnes indicated he would not accept a nomination that included such votes.

Marshall said he was surprised to receive the nomination and realizes the public will put "special pressure" on him when he takes office.

Hearnes has not announced when he will make the appointment for the term which expires March 1, 1971.

The major job of the lawmakers will be to pass about \$20 million in emergency appropriations to carry state agencies through the fiscal year ending June 30. They are expected to be called back in April to pass appropriations for the 1970-71 fiscal year.

By that time they may know the verdict of the voters on an income tax law passed in an earlier special session last September. Signatures on referendum petitions to send the law to a vote of the people are being counted now by the staff of Secy. of State James C. Kirkpatrick.

The law was challenged by Sen. Earl R. Blackwell, D-Hillsboro, who headed the referendum campaign.

Blackwell is currently president pro tem of the Senate but fellow Democrats have voted to dislodge him and that would be one of the first items of business in the Senate when it convenes Jan. 19.

The Democrats voted 15-8 to oust Blackwell as president pro tem, which indicates some Republicans must join them to gain the necessary majority in the 34-member Senate.

Paul Williams, the governor's legal aide, said the plan is to limit the session's work to emergency appropriations.

He said there is a great amount of pressure to raise the legal interest rate on home loans from 8 to 10 percent because of the current tight money market.

But today it seemed doubtful Hearnes would add that to his call. The legislature is limited to consideration of the topics the governor presents and he is reported hopeful the special session could finish its work within a week.

## President Thieu Pleads With South Vietnam to Unite

JACKSON — Robert Nelson, farmer near here, has a cow that gave birth to twin calves Christmas eve, and the eighth set of twins. The cow now has

water heater and burned through the floor and caught the insulation on fire.

There was minor damage.

At 9:45 a.m. today firemen went to Patrick's Coal Shed in an alley behind Locust Street to extinguish a blaze. There was minor damage.

Today at 9:50 a.m., firemen went to 213 Vine St., the home of Mrs. Inez Hollands, to extinguish a fire that started from an overheated coal stove. Damage was done to the ceiling around the flu.

POOR CHARLIE SAYS!  
WAITING FOR THE TRAIN

The small, weather - stained building sits beside rusted rails. No more does the train come rumbling and clattering to a stop. The village depot has played its role and now drowns through the heat of summer and the storms of winter.

Time was, half a century ago, when waiting for the train was a highlight of the day for villagers. On a Saturday afternoon it was always good news when father said, "Son, Belle needs a run. Hitch the Morgan to the pung, get the cream jugs and a bag of cottonseed meal."

An hour before old 57 was due from the city, men and boys began to gather. The pot-bellied stove threw a welcome warmth; the floor was dark and splintered and the windows were gray and grimy with old cobwebs.

The small office of the station agent was cluttered with papers; the telegraph on the windowsill shelf cracked out mysterious messages. Farm lads studied the posters of wanted criminals and planned how to spend the \$5000 offered for a train robber.

Then, suddenly, far down the track one heard the thin, high-pitched whistle as the engineer blew for Wilder's Crossing. In a few minutes, the train came chugging into the station with bell clanging and the dry screeching of brakes as the train rumbled to a stop. Milk cans and cream jugs, chicken crates, boxes and cartons were tossed onto the steel - wheeled station cart.

"All aboard" shouted the conductor. With staccato steam blasts and ringing bell, the train pulled out. Small village depots have disappeared, but there are men who still recall the fun of waiting for a train.

Heard at the coffee table: "There's always something about a self-made man that shows."

Ben Franklin said it: "To bear other people's afflictions, everyone has courage and enough to spare."

Tell the boss how busy you are. He's looking for someone with job - time they could use for working.

DON'T JUST SIT THERE - DO SOMETHING!

"The plumber was here only 10 minutes to fix the stopped - up sink, and his bill was \$15!"

"I've had my car into the garage three times, and they still haven't found out what is making that strange noise."

"The heating repairman said he can't get here until a week from next Monday."

According to a survey by the Family Economics Bureau, getting household appliances, home and automobiles repaired is one of the biggest problems facing the American consumer.

When one of the almost billion appliances or 100 million automobiles breaks down, what can be done? Throw it away and buy a new one? Fix it yourself? Or prepare to fight the battle and pay the price?

Better Business Bureaus report that service problems are their major source of complaints.

B.B.B. found that getting things repaired today often involve maddening delays, shoddy workmanship and startling expense. Incompetence and "I don't care" attitude increasingly characterize repairmen.

The training of qualified personnel apparently cannot keep up with the growing number of appliances and automobiles. In the auto industry, for example, the number of vehicles has increased 100% in the last 20 years, while the number of mechanics increased little more than 20%. Carpenters, plumbers and electricians are just as hard to find.

Prizes for good repair work are high, but the consumer must be prepared to accept them. When phoning for a serviceman, the Better Business Bureau recommends asking for a quotation of the company's standard rates. If the rates seem too high, check elsewhere.

Good service just doesn't happen. Charges include not only wages of the repairmen for his time on the job, but also the cost of his truck, equipment, travel time and specialized training -- which might have taken up to four years!

A spare parts inventory, office rent and equipment, utilities, taxes and insurance are all figured in the cost. Remember too, the company has to make a profit to stay in business.

Twelve years ago the well - equipped appliance repairman went out with \$100 worth of tools in his truck. Today that same repairman may carry as much as \$3500 worth of tools and equipment, much of it highly technical.

Different repair parts -- 100,000 of them -- are needed for cars now in use. There are 200 parts in a TV set that could cause a picture failure. Is it any wonder that an appliance parts distributor can have a \$70,000 parts inventory?

Americans discard repairable items worth an estimated \$18 billion every year. This is simply because it often makes no sense to get things fixed at the going prices for services. Appliances and autos are often so complex that even finding the problem requires hours of costly labor.

A consumer can help eliminate the need for service calls. First and foremost, manufacturers and repairmen alike say that consumers should read the instruction book or operator's manual that comes with any new appliance or automobile.

Joseph Gauss said, "In about 1/3 of all in-warmer service calls, it isn't service that's needed, it's education." Many repair jobs require merely plugging in the appliance.

A little preventive maintenance will eliminate many breakdowns. Failure to defrost a refrigerator or freezer when needed can result in a burned out motor. Washing machine overloading is a major cause of equipment breakdown -- as well as poor laundering results. Regular oil changes prevent costly repairs to other parts of the car.

Check carefully on the guarantees and warranties on all new appliances and autos. Know just exactly what

they cover, and who will do the work.

A man around the house who is mechanically inclined can save tremendous amounts in repair costs. Discovered there is lots of help available. Many manufacturers give directions for replacing minor parts in their instruction books.

Tools are widely available for do - it - yourself home repair. Many tools can also be rented. Home magazines are devoting more space to home repairs. Trade associations such as the Plumbing, Heating and Cooling Information Bureau in Chicago put out booklets explaining how to do minor repairs at home. State home extension offices and county agents have many pamphlets on how to repair a wide variety of items.

Bookstores and libraries offer a large assortment of "home repair encyclopedias". Public libraries even have available auto dealers service manuals which can provide great help for the home mechanic.

Industry is beginning to offer help to the "do - it - yourselfer" too. Ford considers the Maverick a repair - it - yourself car. Proctor - Silex is making small appliances that can be repaired at home. Each is built on a module basis; these modules can be snapped apart and easily replaced. Some parts distributors are advertising themselves as "the parts depot for the do - it - yourselfer".

When home repairs fail or are not feasible, look for the most reliable serviceman or contractor you can find. The Family Economics Bureau found there are many of them. Check with the Better Business Bureau if there is doubt about a company. Find out where friends have had good service performed. For a big job get several estimates; reliable firms will not charge for this.

An authorized appliance or auto service center has to meet rigid industry standards in terms of equipment and manpower training. Independent servicemen also depend on repeat business and build up a reputation for competence.

The work is still not satisfactory, or the service is poor don't just sit there and boil -- do something about it!

Speak up! Direct the power of the consumer to the channels where it will do some good. Write to the Better Business Bureau or the local Chamber of Commerce.

The Association of Home Appliance Manufacturers in Chicago serves as a clearing house for dissatisfied consumers. It forwards complaints and follows up to see that legitimate gripes are satisfied.

When you have a justified complaint, write to the manufacturer. He wants to know. He realizes that an angry customer will buy from somebody else next year.

Whirlpool Corporation has one of the best methods of meeting customer satisfaction. Their appliance warranty is an easy - to - understand and friendly letter. They have also set up a 24 - hour - a - day national toll - free telephone service to answer complaints.

Letters to the industry have really helped in the appliance field. The same needs to be done in the auto industry and in the field of home repairs.

Whatever you do, do something. Don't just sit there and boil!

## Hal Boyle

NEW YORK (AP) - A lot of very own people already have bad consciences, although 1970 is only a week old.

They feel guilty, are shamed, and can hardly look their fellow man in the eye.

This is because they have already broken a raft of good resolutions they made just a week ago. Seeking to perfect themselves all at once, in a burst of rash enthusiasm they pledged themselves to high resolves that even a cautious angel in heaven would fear to vow.

If all your good resolutions are negative, they may be more harmful than helpful. You must balance them with positive resolutions. A negative resolution is one in which you declare you'll quit doing something that is wrong or bad for you. A positive resolution is one by which you pledge to do something that is good for you.

In any case, the resolution, negative or positive, must be one which is humanly possible for you to keep.

Here, for example, are some constructive negative resolutions you might start with:

To cease accepting free \$1 cigars from total strangers.

To quit volunteering to act as cosigner on loans for office gamblers.

To give up the eating of pomegranates after midnight.

To refrain from using any toothbrush at home unless you are particularly sure it is your

red by using just one paper towel, instead of seven, when drying your face in the office washroom.

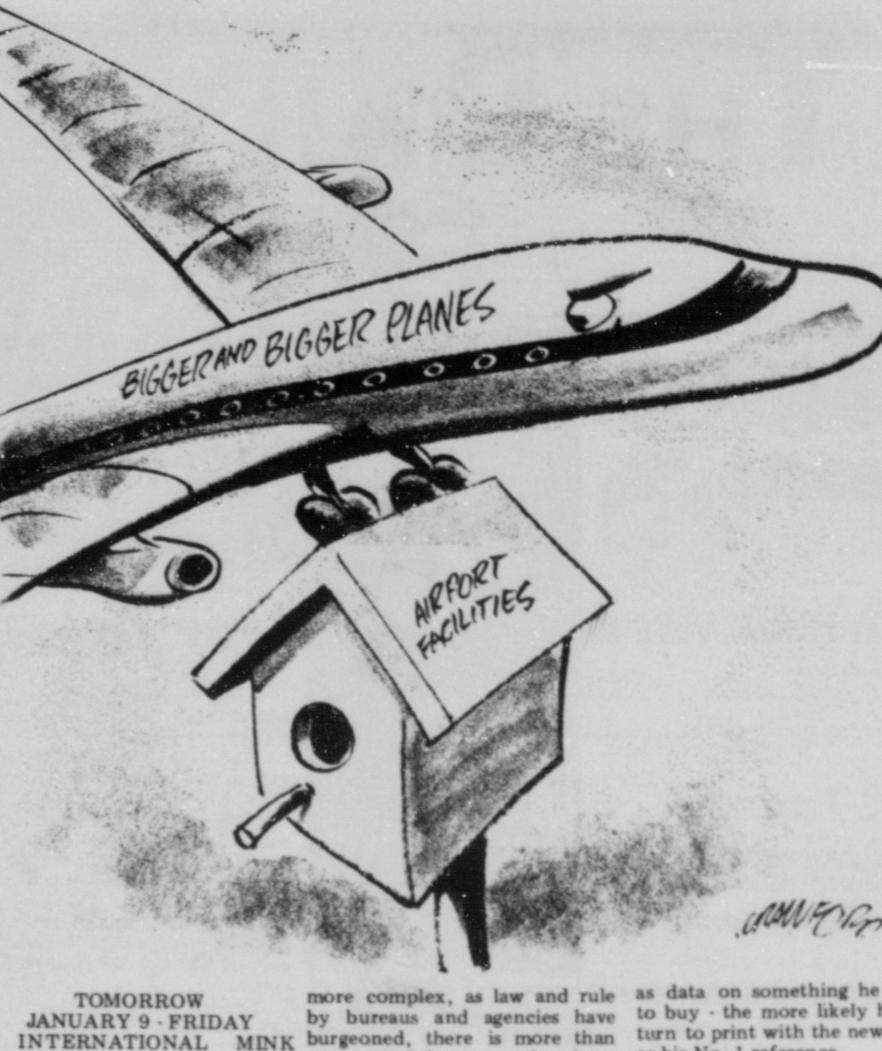

Agree to lick the stamps for your wife's Christmas cards if she'll agree to go on carrying out the garbage throughout the year.

Get the idea? Any good resolution you make and keep, no matter how small, can't help but make you feel you're a better man when 1970 dawns.

In fact, at least four brave

armed forces newsmen, both civilian and military, have

can be sure the Pentagon is

A by-product of advertising is free and independent press. Not even in the United States, in spite of constitutional guarantees, did a free and fair press exist until advertising freed publishers from highly partisan supporters and select interests.

From the time of the American revolution until approximately 1830, American journalism was represented by small, highly biased political sheets. However, when expanding business firms recognized the need for reaching a new public through advertising, publishers found a neutral and variegated source of support which made them independent.

Indeed, advertising made it imperative that the newspaper should think in terms of serving the whole public, rather than venting wildly for special political projects. Advertisers could not wisely support publications which failed to

protect their sons from being fully informed about such unpleasant truths as deporable dependents' school buildings, filthy housing for GI families, accurate news of alcoholism and drug use by GIs, brutal and sadistic non-coms.

THE FIRST TURN

A recent survey by the Newsprint Information Committee research study indicates that newspapers are the prime medium for buying information.

This survey showed that two out of three people look forward to seeing the ads in their newspaper while only one out of four look forward to TV and radio commercials.

Today, perhaps even more significantly than at any time in history, newspaper advertising is the best support and guarantee of a free press.

As government has become

more complex, as law and rule by bureaus and agencies have burgeoned, there is more than ever a need for a press free from control of political interests.

Such a press exists only where advertising support has made it possible for a publication to serve the whole public without fear or favor.

LIKE WOMEN

In some respects locomotives and women are alike, says the London Daily Mail. Both puff as they run, both are frequently late and unreliable, both get over-heated, and both need plenty of attention from able men.

A frustrated young man went to see his doctor.

"Doc," he explained, "every night I have the strangest dreams. Beautiful blondes, brunettes and redheads appear and one by one they try to kiss me and put their arms around me."

"So?" asked the doctor.

"So nothing, Doc. I keep pushing them away - every one of them."

"And what would you like me to do?"

"Doc, please," pleaded the patient, "break my arms."

Ann Landers

## The Smoking Thing...

### Ashtrays or No Ashtrays

Dear Ann Landers: Like millions of other decent, socially acceptable people, I smoke. Since I am a heavy smoker, I am vastly uncomfortable if I must go for over an hour without a cigarette. Your notion that people who do not want smoking in their homes should not put out ash trays is absurd.

My wife does not smoke, but she has a kidney problem. We would no more go to a home where smoking is not allowed than we would accept an invitation from a hostess who locks the bathroom so guests can't use it. In my opinion, the principle is the same. Please comment. S.M.R.

Dear S.M.R.: Your analogy is picturesque, but the principle is not the same. A guest who uses the lavatory in no way interferes with the comfort or the health of others.

I've never heard of a hostess who locked her bathroom so guests couldn't use. Have you? It seems to me that if such a hostess exists, she would stand to lose a lot more than if she set out no ash trays.

The next letter might interest you.

Dear Ann Landers: On a flight from Cincinnati To San Francisco, I was seated next to a middle aged woman. When the "No Smoking" sign was turned off, I asked my seat-mate if she would mind if I smoked. Her reply was, "I would prefer that you didn't." Her answer irritated me since I am a heavy smoker and felt she was interfering with my rights.

I pointed out that the airlines expect people to smoke which is why they have signs regulating smoking during takeoff and landing. She gave me a dirty look and snapped, "Well, you asked me and I told you!" I replied, "If my smoking bothers you, I suggest that you find another seat." She did.

I was pleased with the forthright manner in which I dealt with this inconsiderate female. Friends to whom I related the incident said I was wrong. What do you think? -- American No. 47

Dear American: I think you behaved miserably. Your right to smoke ends where the other fellow's nose begins. When the woman let you know smoke bothers her, YOU should have found a seat next to another nicotine addict. The two of you could then hock and cough together all the way to San Francisco without offending anyone.

Dear Ann Landers: You must be made of stone. You tell every wronged husband or wife or daughter or son, sweetheart, friend or neighbor to "forgive and forget." Did it ever occur to you that some people just CAN'T? They are too deeply hurt -- too badly damaged. Please pull your head out of the sand, or the clouds, or wherever it is, and use it to think with. It's preposterous to expect mere mortals to behave like saints. -- Made The Scene

Dear Scene: For those who don't like my advice to forgive and get, here's an alternative. Don't forgive and don't forget. Don't even give every agonizing, torturous detail of the past. Talk about it. Dream about it. Cry a lot and feel sorry for yourself.

Mr. and Mrs. Ben Holt

### Celebrate Anniversary

The family and friends of Mr. and Mrs. Ben Holt gathered at the New Savannah Baptist

church to celebrate their 50th wedding anniversary.

Although the couple were married in Alabama, they have made Missouri their home. Mr. and Mrs. Holt have seven children, six of whom are living. Four of the Holt's children, twelve grandchildren and three great grandchildren were present for the celebration.

Those of the family who gathered to honor the couple were Mr. and Mrs. Ed Holt, Kathy and Dale of St. Louis; Mr. and Mrs. J. B. Holt, Dona and Tammy of Benton; Mr. and Mrs. Noah Cox, Mr. and Mrs. Charles Lentz and children, Mr. and Mrs. Troy Starkey and Bernice, Janice, Jack and Carl of Bloomfield; Earl Holt of Sikeston; Mr. and Mrs. James Hardin, Billy Walker, and Mr. and Mrs. Roy Evans.

One daughter, Mrs. George Heavener of Marston, and son, Kirby Holt were unable to attend.

The couple were presented with many gifts, including a gold money tree.

Some others who were present were the Rev. and Mrs. Noah Cox, Mr. and Mrs. Charles Lentz and children, Mr. and Mrs. Troy Starkey and Bernice, Janice, Jack and Carl of Bloomfield; Earl Holt of Sikeston; Mr. and Mrs. James Hardin, Billy Walker, and Mr. and Mrs. Roy Evans.

One daughter, Mrs. George Heavener of Marston, and son, Kirby Holt were unable to attend.

### Mr. & Mrs. Beck Celebrate 60th Anniversary

Mr. and Mrs. Roy M. Beck celebrated their 60th wedding anniversary Dec. 26 at their home. The Becks live at 803 Greer, their home for 46 years. They were married in 1909 at 'Big Opening' near Sikeston.

The Becks are parents of four children, Mrs. George King of Taylor, Mich.; Mrs. Raymond Agee of Peoria, Ill.; Mrs. Lawrence Parks of Cincinnati, Ohio; and Roy L. Beck of Kansas City.

### Women's Meetings

MEADOW LANE GARDEN CLUB met Monday afternoon in the home of Mrs. Buford Baber with fourteen members present and three guests, Mrs. Del Harbin, Mrs. Charlotte Bailey and Mrs. Martha Graff.

Mrs. L. A. Schuenerberg, president, presided during the business session.

It was reported two tricycles had been presented to the children at the Diagnostic Clinic. They were purchased with thymoney the club collected at their December meeting.

Mrs. Baber, who was in charge of the program on "Decoupage", gave an instructional session and displayed many samples of work done by different people.

Following the meeting, refreshments were served by Mrs. Baber and Mrs. Ruth Lee.

### MONDAY

The Executive Committee of Southeast School PTA will meet in the home of Mrs. Dale Webb, 2014 Kentucky Road, 7:30.

### THURSDAY

Charleston Baptist Association's WMU will meet, the day meeting begins at 10:00 and concludes with the noon potluck meal at First Baptist Church, Morehouse. The night meeting is at 7:30 at Fellowship Baptist Church, 228 Missouri, Sikeston. Miss Miriam Misner, missionary to Indonesia, will speak at both meetings.

### THURSDAY

The American Legion Auxiliary will not meet as scheduled, due to inclement weather, and illness among the families of members.

### Same Birthday

The age of any horse is calculated from Jan. 1, regardless of the time of year it was actually born. A foal becomes a yearling on the Jan. 1 after its birth and adds a year to its age every following Jan. 1.

### SULTRY SINATRA

Tina, Frank's youngest, who has decided on an acting career instead of singing because she doesn't want the "inevitable comparisons" with other members of her family. The 21-year-old adds, "Who needs it?"

### Speedy Swimmer

The beaver's speed under water and its lung capacity are truly remarkable. It is able to cover a quarter of a mile in 15 minutes without coming up for air.

### DESIGN IDEAS

• No longer do children and light-colored upholsteries have to avoid each other. With the new man-made fabrics now on the market, you can indulge your taste for damask, linen or whatever pleases your fancy. All kinds of textures and patterns are available in easy care synthetic upholsteries.

• Dark blue walls, perhaps in a floral wallpaper with touches of lighter blue and cream, make a lovely background for a walnut bedroom suite. The whole would be perfect for that teen-age girl in your home.

• Let the room express the personality! When you are decorating a room for your son or daughter, take his or her hobbies into consideration.

The couple were presented with many gifts, including a gold money tree.

Some others who were present were the Rev. and Mrs. Noah Cox, Mr. and Mrs. Charles Lentz and children, Mr. and Mrs. Troy Starkey and Bernice, Janice, Jack and Carl of Bloomfield; Earl Holt of Sikeston; Mr. and Mrs. James Hardin, Billy Walker, and Mr. and Mrs. Roy Evans.

One daughter, Mrs. George Heavener of Marston, and son, Kirby Holt were unable to attend.

The couple were presented with many gifts, including a gold money tree.

Some others who were present were the Rev. and Mrs. Noah Cox, Mr. and Mrs. Charles Lentz and children, Mr. and Mrs. Troy Starkey and Bernice, Janice, Jack and Carl of Bloomfield; Earl Holt of Sikeston; Mr. and Mrs. James Hardin, Billy Walker, and Mr. and Mrs. Roy Evans.

One daughter, Mrs. George Heavener of Marston, and son, Kirby Holt were unable to attend.

COVER KIDS ... Gregory (left) and Sheryl Cannon (right), children of S/Sgt. and Mrs. Malcom Cannon of Topeka, Kans., appeared on the cover of the Sky Schooner, chronicle of Forbes Air Force Base, Topeka. The Boy Scout, Second Class Scout Ricky Starwiat, is showing the children one of the many Christmas trees the scouts had on sale at the base commissary. The Cannon children are grandchildren of Mr. and Mrs. Lance Cannon of Essex and of Mrs. Thomas Kavy of Sikeston.

## Cook's Column

Old fashioned deserts are favorites of today's modern families. Here is a cake recipe which has been circulated through three generations of our family. The recipe source is unknown, but others similar to it have been found in old 'farmers' cookbooks.

It takes about 20 minutes to mix the cake. The frosting may easily be cooked while the cake bakes.

### BLACKBERRY JAM CAKE

3 whole eggs

1 cup butter or margarine

1 cup white sugar

1 cup brown sugar

1 cup sour milk (or 1 scant

cup sweet milk plus 1

tablespoon lemon juice or

vinegar)

1 teaspoon baking soda

1/2 cup jam (blackberry or

your favorite--must be thick--I

prefer seedless blackberry or

strawberry.

1 cup raisins

1 cup nut meats (preferably

walnuts or pecans, but almost

any may be used)

1 teaspoon each cinnamon,

ginger and allspice

3 cups flour

BLEND eggs, butter and

sugars. DISSOLVE baking soda

in sour milk and add to mixture.

ADD jam, raisins, nut meats,

spices and flour. BEAT

THOROUGHLY (until blended

well). Batter will be smooth.

BAKE in round layers (two or

three, depending on diameter of

pans), at 350 degrees for 25 to

30 minutes (test with a

toothpick when pick comes

out clean, cake is done).

### CARAMEL ICING:

1 cup white sugar

1 cup brown sugar

2 Tablespoons butter

1 cup heavy cream

(suggestion: 1/3 cup condensed

milk plus 2/3 cup cream

substitute or canned milk).

1 teaspoon vanilla

MIX thoroughly. PLACE pan

on medium high temperature

and COOK until mixture forms

soft ball (can use candy

thermometer). REMOVE pan

from heat, and cool. BEAT to

spreading consistency. (If

over-cooked slightly, icing will

tend to sugar. It may be

returned to low heat and 1 to 3

tablespoons milk added. As soon

as icing reaches stirring

consistency, remove and spread

onto cake.) Garnish with nut

havens, icing slightly brittle when

cold, but cuts smoothly at room

temperature.

## Campbell Checks Jones, But Loses To Chargers

**SENATH** — Tournament deficit. The inexperienced and action got underway last night as younger Lions couldn't control the opening rounds in the or cool off the Rebel scoring. Senath - Hornersville Invitational attack as four Rebs hit in double tournament saw the number one figures. Outside shooting was and four seeded teams gaining the downfall of the Lions was the opening victories. The Delta they connected for only 12 field C-7 Chargers, seeded first in the goals to Southland's 22. tourney, rolled past an Randy Smith lead the Rebel impressive Campbell squad attack with 15 points, as 61-54, to earn a quarter - final additional double figure scorers bout with Southland, who were Waites with 13, and Cude completed the first round action and Lambert with 12 each. The with 63-45 win over Senath - Rebs record now stands at 9-4, Hornersville.

The Charger's All - The Seanth - Hornersville Conference forward, Charles Lions placed no one player in Jones, was checked by the double figures, but managed to Campbell defense, as the place 11 players in scoring. previous team scoring leader Freshman Barry Harris lead in managed to hit only six pointers. The slack was taken up though, as his teammates hit nearly fifty tonight as North Pemiscot meets - percent from the field and Hayti, North in a 6:30 p.m. added 13 free tosses. The game, while South Pemiscot will camels, despite a not so clash with Rico in the later 8 impressive won - loss record, p.m. contest.

WHILE THIS picture doesn't look too warm, trout fishing in general is red hot in Missouri. Anglers are awaiting the March 1 opening in the trout parks. Fishing in streams and Lake Taneycomo is open year-round to those with a \$3 trout stamp, now available from the Department of Conservation. (Department of Conservation photo)

## Sports Corner

By Ron Jaynes  
Sports Editor

N. P. McDaniels, head basketball coach at Sikeston high school, has announced plans for a three-hour basketball clinic at the field house each Saturday for residents of the Sikeston school district in grades four through eight.

Basic basketball skills will be taught to those attending by the SHS coaching staff.

Registration will be at 9 a.m. Saturday.

Times have changed.

That phrase is never outdated as they surely have, especially in the field of sports.

One big factor is the number of out-door basketball goals un-occupied. In recent year's one could drive through virtually any neighborhood and see a number of youth's shooting, but how many can you see today? . . . very few.

This might not be the time of the year to discuss this matter, but the number of goals in backyards also has dwindled over the years.

We just wonder if the youth of today are just too lazy to get out for a few goals.

Basketball has long been one of Southeast Missouri's biggest sports, but the caliber of players is not far behind with 10.

Mike Wingerter lead the Indians in their win, as he popped in 17 points. Jim Moll added to the total as he managed 11, with teammate Schnerrbusch not far behind with 10.

Mike Williams and Ron Bollinger each hit 10 last night, in the Ste. Genevieve cause.

In St. Genevieve's 49-31 JV victory, Armbruster lead in scoring with 14. Cooper hit 8 in the St. Vincent's JV loss.

Scoring:

ST. VINCENTS (49)  
Wingerter 17, Hurst 3, Moll 11, Saur 7, Schnerrbusch 10, Gremauld 1. Totals: FG-18; FT-16.

ST. GENEVIEVE (47)  
Callahan 4, Holland 9, Thomas 2, Williams 10, Bollinger 10, Coffman 6, Bova 6. Totals: FG-16; FT-15; PF-17.

Score By Quarters:  
St. Vincent 7 14 14 14-49  
St. Genevieve 8 15 16 8-47

## Galvanized Ganders

By JOEL M. VANCE

If all Canada geese were started nailing ordinary tub posts set above the water at Missouri's Giant Canada tub posts, we'd all freeze to death because the flocks would blot out the sun.

May be that's an overstatement, but the Giant Canadas, currently in residence in a number of Missouri fishing and waterfowl areas, are doing just fine, thank you, in their galvanized penthouse apartments.

The whole idea started 20 years ago when the late Paul Tulenko, then game chief for the Department of Conservation, and his successor, the late Charles (Ted) Shanks, wondered if Canada geese couldn't be induced to nest in Missouri. The work presently is being carried on by Richard Vaughn.

The Giant Canada or, to give it its Latin name, "Branta canadensis maxima" was thought to be extinct at one time, but remnants of the great birds (which weigh at least a third again as much as the Canada goose species haunted annually at Swan Lake) were located mixed in with other types of Canadian geese.

The Department bought 24 of the big birds from a long-established private flock in 1952 and in 1958 the tub program started. The Giant Canadas have been barely maintaining themselves at Trimble Wildlife Area, hindered because of predation on eggs.

In 1956, the Department of Conservation was hunting at Trimble and Schell - Osage and Duck Creek, but no Canada goose hunting.

There's nothing to prevent a hunter from downing one of the big birds outside the refuge areas, but few of the geese stray very far from home.

Geese normally are thought of as ground nesters and they are in the Canadian barrens where there isn't much else but ground. In Missouri, the birds readily accept elevated nests. Some geese have adopted osprey nests and goslings have fledged 80 feet out of nests onto a gravelled stream bank without damage.

Many Canada geese will not nest in latitudes as low as Missouri. But the Giant Canadas seem to like it here. The Canada goose population which Missouri hunters see each fall nests on the southwest shore of Hudson Bay, Canada.

## Bernie Couple

Wins Annual

## Stork Derby

DEXTER - Mr. and Mrs. Joe Finch of Bernie are the winners of the "First Baby Contest" sponsored by the Dexter Statesman - Messenger and merchants.

A baby boy weighing 7 pounds 4 ounces was born to Mr. and Mrs. Finch January 1 at 5:37 p.m. at the Poe Clinic here. He has been named Frankie Fuson. Attending physician was Dr. Faud Kandalaf.

The Finches have one other child, a son, Joe Wayne Junior, who is two-and-a-half.

Maternal grandfather is Frank Cunningham and paternal grandparents are Mr. and Mrs. Charles Finch of Bernie.

The father is an employee of Brown Shoe Company, Bernie, and the couple reside in the Bernie Housing Development, Apartment 310.

As the "First Baby" winner both the new arrival and his parents will enjoy a long list of prizes and gifts provided by participating merchants.

## \$800 Burglary

### At Kennett

KENNEDY - Thieves broke into the Kennett Savings and Loan Co. Sunday afternoon or during the night, stealing \$800 in currency and a valuable coin collection consisting mostly of gold coins.

The burglary was discovered by William Jones, president of the firm, at 8 a.m.

Prying open the safe, thieves stole approximately \$800 in paper currency, including \$100, \$50 and assorted denominations of bills; approximately \$400 to \$500 worth of gold coins, which included five cent pieces, one dollar pieces, five dollar pieces and 20 dollar pieces; a bag of 75 pure silver dollars; and over 200 pieces of assorted foreign coins, value undetermined.

The coin collection was the property of Jones, who had been keeping it in the safe. The \$800 stolen belonged to the Kennett Savings and Loan.

Police Captain Bill Cox said the burglars bypassed an envelope of valuable old paper bills and an assortment of antique jewelry.

Investigating the burglary are police, sheriff's department, and the Missouri Highway Patrol. The Federal Bureau of Investigation has been called in to assist in the probe.

### No Change in

### FHA Interest

NEW MADRID - Richard T. Bartlett, New Madrid county supervisor of the Farmers Home Administration, said today the announced increase in interest rates from 7.5 to 8.5 per cent by the Federal Housing Administration and the Veterans Administration Tuesday did not affect FHA housing loans.

The interest rate of FHA, an agency of the U.S. department of agriculture, which makes rural housing and rural housing repair loans, remains at 6.25 per cent, which has been in effect six months, Bartlett said.

## POLLY'S POINTERS

### Cat Odor Problem

### No Problem for Them

By POLLY CRAMER

DEAR POLLY—I have a simple answer to M. B. K.'s cat-odor problem that worked for me. Tell her to buy two large boxes of baking soda and put it in small dishes to place under her couch, on tables and anywhere there is an odor. She may have to leave them there for several weeks and even change the supply of soda in just a day or two, she should notice that the odor is starting to disappear.—DOROTHY

DEAR POLLY—The lady who wishes to get rid of the cat odor in her home should be encouraged to try putting lemon halves turned down on newspapers. Leave all the windows and doors closed during an eight-hour period. This method worked for a man who hit a skunk with his automobile. Remove lemons and papers the following morning.—DARLENE

### Polly's Problem

DEAR POLLY—My six expensive, plastic tumblers are stuck together from being stacked when warm and a little damp. The hot and ice water treatment did not budge them. Could someone help me with a suggestion?—STUCK

DEAR POLLY—I hope some manufacturer of aerosol cans reads your column. I would like to tell them that people with poor eyesight cannot see the arrow which shows which way to spray if the arrow is white. One of my friends almost blinded herself because the arrow was so dim and she squirted the wrong way, toward her eyes. I think all these arrows should be red.—SHIRLEY

## Trade Groups Called Program Threat

PORTAGEVILLE — The outlook for a workable cotton program being enacted in 1970 has been seriously damaged by trade-oriented groups, a veteran cotton leader told a session of Southeast Missouri agri-business leaders.

Hilton Bracey, cotton official of Midcontinent Farmers Association, explained that a coalition of trade-oriented groups was striving to eliminate key farm income protection provisions from the cotton program in order to reduce government program costs enough to permit continuation of give-away cotton prices to domestic textile mills under the guise of so-called one-price cotton.

Bracey said that the trade-oriented groups were trying to reduce the CCC loan level down to 18 cents per pound or about 2 cents per pound below current levels, eliminate the parity concept which now requires that price support payments when added to the loan level must reflect at least 65 percent of parity on production from the allowable acreage, reduce the 16 million acre national allotment on which payments to farmers are based, and switch the method of computing payments from projected yields to actual yields which would leave the farmer completely unprotected in times of natural disasters such as those experienced during the past few years.

In reply to questions from the floor, Bracey said he was convinced that current trends toward destruction of the United States cotton industry could be halted and reversed if enough members of Congress come to recognize the need for protecting cotton farm income from the ravages of the so-called one-price system being advocated by the trade-oriented groups. He urged that agribusiness leaders as well as farmers themselves let their elected representatives know that the trade-oriented groups, including some with the word "producer" in their titles, are not speaking for farmers when they advocate continuation of the so-called one-price system and elimination of the farm income protection provisions in the current cotton program.

In reviewing the operation of the so-called one-price system for cotton in effect for the past six years, Bracey said it has been a failure by any and every responsible measurement. He said that it has not accomplished a single objective that its trade-oriented proponents claimed would be accomplished. Instead, of increasing cotton off-take and lowering costs of textile products to consumers, Bracey reported that use of cotton has dropped to the lowest level in over a decade and cost of textile products to consumers will climb to an all-time high, were fined \$10 each and paid \$5. Furthermore, he noted, that the so-called one-price system was responsible for the some 50 fined \$10 and paid \$5 cost for percent drop in export sales of past few years.

## Matthew News

MATTHEWS — E. M. Radcliffe and daughters, Misses Lynn and Ann, of Memphis, visited last Tuesday with his mother, Mrs. M. H. Radcliffe.

Mr. and Mrs. Roger Roberts of St. Louis spent the holidays here with Mr. and Mrs. Ralph Faries and Lila and Reggie Radiver.

Mr. and Mrs. Bill Harris and children, Debbie and Scott, of Blytheville, Ark. visited here during the holidays with Mr. and Mrs. Clifton Harris, Ellis V. Reid, and daughter, Miss Donna Jo, and son Bill Reid.

Harold Burch was released Wednesday from Missouri Delta Hospital where he had been a medical patient.

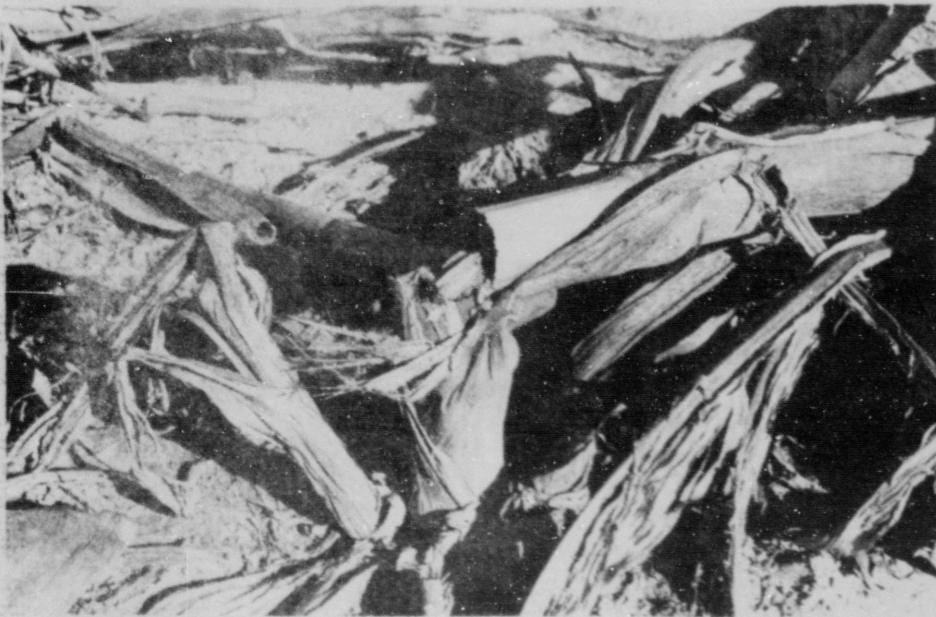

Mr. and Mrs. Bob Alsup and daughters, Pamela and Carolyn, visited Friday to their home in Armory, Ark. after having visited several days with her parents, Mr. and Mrs. Dennis Parsons.

Mr. and Mrs. Herschel Yates and son, Marshall, of Washington, D. C., returned last weekend from New Brighton, Minn. where they had spent the Christmas holidays with Dr. and Mrs. Wilson Yates and children, Natasha and Stiles.

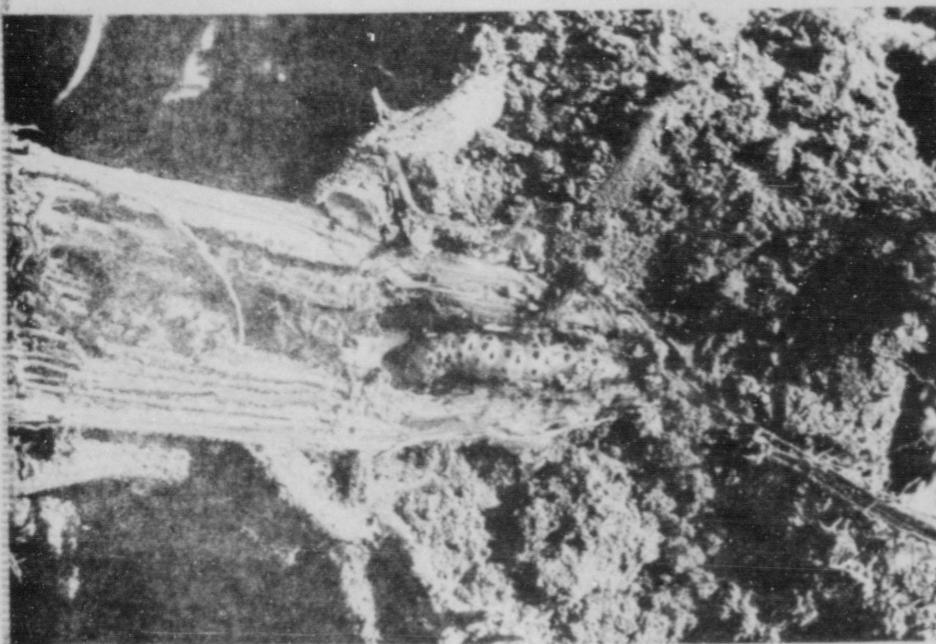

Dr. and Mrs. Clifford Nelson and daughter, Christina Leigh, returned to their home in Greenbelt, Md. Friday after having spent the holidays here with Mr. and Mrs. B. B. Conrad and son, Charles. Other guests for Christmas dinner of the Conrads were Mr. and Mrs. A. E. Stone and daughters, Misses Carole and Jane, of Belleville, Ill., Wade D. Waters and son, Steven, of Bryan, Ohio; Mrs. L. D. Waters, and Mr. and Mrs. Wallace Waters.

Mr. and Mrs. Bill Wayne King daughter - in - law, Mrs. Jerry Lynn, and sons, Jerry and Jeffrey, of (Mary) Jones, Jerry Gibson City, Ill., were guests accompanied them home and during the holidays of his returned there after the parents, Mr. and Mrs. Lester King and daughter, Brenda.

Lyle Proffer and David Bird returned to St. Louis last weekend after having spent the Christmas holidays with their parents, Mr. and Mrs. Lyle Bird, and sister, Linda

THIS CORNSTALK broke over after being girdled on the inside a couple of inches above the ground by the larva of a Southwestern corn borer. If the stalk breaks before harvest, the ear of corn drops to the ground.

A SOUTHWESTERN CORN BORER in its summer form was exposed by splitting a corn root. During the summer, the larva has black spots. After its last molt before going into hibernation, the larva is an off white or cream color.

## Corn Borer Causes

### 13 Per Cent Loss in Delta

COLUMBIA — The Stoddard County, Southwestern corn borer caused Other county infestation reports were: Butler, 19.2 percent; Cape Girardeau, 18.6 percent; Dunklin, 14.8 percent; Mississippi, 24.2 percent; Pemiscot, 21.4 percent; and Scott, 28.4 percent.

The Southwestern corn borer is found in the southern one-third of the state, generally south of a line from Perry County to Vernon County, Munson said.

This represents a 13 per cent loss to the pest which was first found in the Delta in 1958, Munson said.

The loss estimate was based on an intensive survey of cornfields in the area to determine the extent of infestation.

The borer causes reduced corn yields in two ways. By girdling the corn stalk, the borer causes ears to be dropped on the ground where they cannot be picked up by corn harvesting equipment.

In addition, by burrowing in the stalk the borer causes the plant to produce smaller ears.

By counting the number of stalks girdled and stalks with borer tunneling, the entomologists can calculate the percent of loss. The formula for figuring the loss was developed by researchers at the USDA Grain and Forage Research Branch, State College, Mississippi.

Highest infestation of the Southwestern corn borer was found in New Madrid County, where 33.8 percent of the plants were infested. The lowest infestation, 12.2 percent, was in

2. Plant a strong stalked variety adapted to the area.

3. Fall diskling will break up the root stubble and expose the borers to natural enemies and winter hardships.

4. Deep plowing before May 1 will prevent the moth emergence.

For chemical control, endrin is currently the only approved insecticide. Two applications of 0.3 to 0.4 pounds of endrin per acre are required.

The status of this chemical recommendation beyond 1970 is in doubt because endrin is a persistent chemical, the entomologists point out.

#### Bill Burlison

#### Says He Is

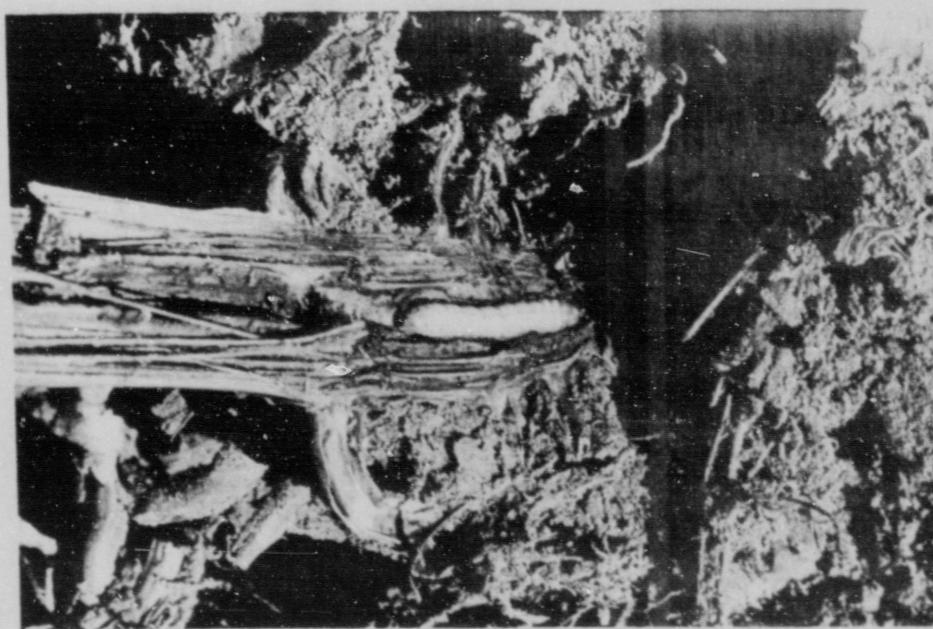

#### A Moderate

CAPE GIRARDEAU — Characterizing himself as a moderate, 10th District Congressman Bill Burlison said

Monday night that there is very little to distinguish left wing extremist groups from their counterparts on the right.

"Both types of extremists differ from reformers in that they seek not to reform the system, but to wreck it," Rep. Burlison told an audience of about 100 persons, mostly students, in Academic Hall at State College.

He added that revolutionary groups may be well-equipped to

SOUTHWESTERN CORN BORER larva has burrowed to the bottom of a corn tap root in preparation for overwintering. In its winter phase the larva, which is about 1/4 inch long is an off white or cream color. Larva found in the corn stalks during the summer are white with black spots. The root was split to expose the borer for the photograph.

RALPH MUNSON, extension survey entomologist from the University of Missouri in Columbia, finds another overwintering Southwestern corn borer when he splits a corn tap root. Munson conducted a survey of corn fields in eight Delta counties to determine the economic loss from the borer.

tear down, but are usually not posture.

He said his votes in favor of more federal aid to education have torn down.

"There are better ways in a than," President Nixon had recommended and against the democracy to get change," he said. "Our founding fathers institutionalized change in the Constitution."

The public meeting was sponsored by Phi Gamma Nu, a professional business sorority at the college. Rep. Burlison's topic was "Moderation: A Theme for Our Time."

The first term congressman had been scheduled to talk on recent federal legislation affecting business, but he "begged off," indicating he had been unable to narrow the topic down to manageable proportions. "Virtually every federal law affects business in one way or another," he said.

Rep. Burlison said moderates are not fence sitters, as they have been described by some, but rather are persons who get attacked by both sides. "Our only solace is the conviction that truth lies somewhere in between the two extremes," he said.

The former prosecuting attorney of Cape County cited various votes he made during the 1969 session of Congress as evidence of his moderate principles and convictions.

In a question and answer period following his formal presentation, Rep. Burlison said he favors lowering the voting

## Heavy Rain Turns to Ice on Streets

50 years ago  
January 8, 1920

Most of this week has been cold and rainy. Wednesday and yesterday the rain fell almost incessantly, much of the time freezing as it fell. Trees and wires are covered with ice and traveling has been greatly impeded. Roads are in an unusually bad condition.

Mrs. C. J. Harrelson of Farmington, mother of Dr. E. W. Harrelson and Miss Margery Harrelson, of Sikeston, died at her home Wednesday. She had been ill for several weeks.

Born to Mr. and Mrs. E. C. Matthews Tuesday night, a son, who has been named E. C. Matthews, Jr.

Miss Margaret Barnes left Monday for Lexington, Mo., where she is attending Central Female College this winter.

40 years ago  
January 8, 1930

J. M. Pitman, for several months past deputy sheriff

under Tom Scott, resigned his commission last week, and will henceforth be known as "Jim" the citizen, instead of "Jim" the officer.

Little Elizabeth Ann Baker, daughter of Mr. and Mrs. Tom Baker of Ruth street, was hostess at a birthday party last Friday afternoon. Those who enjoyed the fun and refreshments were: Marie Hicks, Betty Ann Reed, Jamie Habs, Nancy Jane Cummins, Mary Ellen Bailey, Caroline Weltecke, Bob McCord, Dean Righter, Patsy Ruth Gentles, Francoise Kindred, Lowell Greer, Jr., H. A. Williams and Martha Mae Lathom.

Misses Lydia and Audrey Chaney are now with Dr. and Mrs. Handy L. Smith for the balance of the winter, while their mother, Mrs. Kate Harris, is with Mrs. C. A. Cook.

In "The Empire," trade paper of the Cities Service Oil Co., we find that Marilyn Esther Arthur, two-year-old daughter

of Mr. and Mrs. O. M. Arthur, is mentioned as the youngest stockholder in the concern. Marilyn owned five shares of the securities when only 22 months old.

20 years ago  
January 8, 1950

Mrs. Chester Mack, wife of the Democrat mechanical superintendent in Benton, Wednesday night presented her husband with a set of twin girls. This makes numbers 8 and 9 for the pint-sized printer, who claims that he had worn out five pairs of shoes pacing hospital floors.

Hospital notes. Mr. and Mrs. John Burtum, Route 1, Sikeston, are parents of a daughter.

Mr. and Mrs. Richard Hill of Sikeston also became parents of a daughter as did Mr. and Mrs. Riley Kelley, of Matthews.

Malone Theatre, tomorrow, "The Doctor and The Girl" with Glenn Ford, Charles Coburn, Gloria DeHaven and Janet Leigh.

Rex Theatre, tomorrow, double feature, Dorothy Lamour and Don Amache is "Slightly French" plus "Song of India" with Sabu and Gail Russell.

for a peace disturbance charge. Violation of wildlife code brought a \$5 fine, \$11 costs to Bennie Gene Scott.

Terry Joe Riggs charged with operating auto without operators license second offense, was given until January 7 to pay a \$20 fine, plus \$15.60. A 10-day jail sentence was suspended and the defendant was placed on probation for one year.

Careless and reckless driving charges against Charles Riggs brought a \$25 fine, \$16.05 costs. Jessie Farrell Shipp paid a \$10 fine, \$11 costs for careless and reckless driving, drinking and exceeding legal speed limit.

Patricia Ann Hayden and Wade S. Malcolm each paid \$14 fine, \$11 costs on speeding charges. Alfred E. Powless paid \$13 fine, \$11 costs and Jerry Lee Wilcox paid \$15, plus \$11 costs for speeding.

Improper passing - failure to sound horn - charges against Larry Dennis Allred brought a \$15 fine and costs of \$11.

William Charles Harper charged with excessive speed, failure to use extreme highest degree of care paid a \$5 fine, \$11 cost.

Paul Harris charged with improper registration (Missouri resident - out of state license). Charges were dismissed as defendant has moved out of Mississippi County and is hereby closed.

Richard Page Slaughter charged with illegal possession of alcoholic beverage (beer) paid a \$25 fine, \$11 costs.

John Raymond Bridges, Jr. charged with illegal possession of intoxicating liquor and permitting an unauthorized operator to drive, paid \$25 fine on first count, \$5 fine on second count, plus court costs of \$15.

Steven Wayne Oakley paid a \$25 fine and \$15 costs on a charge of illegal possession of alcoholic beverage. A charge of supplying alcoholic beverages to minors was dismissed.

Judgement was found for the plaintiff, Key Loan Co., to recover from defendant, Lindsey Stockman, \$355 with interest rate of 2.218% per month from date of judgment, together with costs of \$10, in a promissory note suit.

TETHER BALL for giants? The sphere suspended from the brace on the lamp post is a tether ball, common equipment on playgrounds. The rope by which the ball is suspended is entangled about the top of this lamp post on front of the Dr. John Doggett residence on North Kingshighway.

The Daily Standard, Sikeston, Mo.

agreement with the network, should have done it."

"It is true to an extent for TV coverage but not to other sources of news."

"It appears that Agnew was not taken seriously enough by the networks because extensive coverage is still being given to the black panthers and the conspiracy trial in Chicago. Don't get me wrong. I believe it should be covered to an extent in both cases, national broadcasters are encouraging disruptiveness and bad feeling by leaning toward the defendants."

"Twelve citizens agreed, two disagreed, and one was undecided."

A few of the comments:

"I think he's right."

"I don't feel he's the right man to say it but it needed to be said."

"I disagree. I don't think he

## Burglary Charges Against Trio Dropped

CHARLESTON - Cases heard in magistrate court by Judge Tom Brown, Jr.

Burglary and stealing charges

were dismissed against Richard Leroy Clark, Billy Joe Garrett, Jr., and Willard D. Wilson, accused of breaking into a Coke machine and attempting to enter the East Prairie Lumber Co.

Prior to the dismissal of charges, a preliminary hearing had been set for Thursday and their bond set at \$1,500. The trio failed to post bond and were committed to jail.

Ray Hise charged with

disturbing the peace was given a \$10 fine, plus costs, or a ten day jail sentence. Failing to pay the fine and costs, the defendant was committed to jail. Roy Ivie, et al paid a \$10 fine, \$9.50 costs on a similar charge. Eddie Golightly, et al, also charged with disturbing the peace paid a \$10 fine and costs of \$11.75.

The Ivory Gate will have a battle of the bands contest at Sikeston's Batman A-Go-Go. Personal bond of \$500, proceeds will go toward approved by judge T. J. Brown, community projects of the Jr., return to court Thursday Jaycees.

## SINUS SUFFERERS

Here's good news for your Exclusive new "hard core" SYNA-CLEAR Decongestant tablet, our tablets and capsules are a proven and safe oil nasal-sinus capsules. One "hard core" tablet gives you up to 8 hours relief from sinus pressure and congestion. Allows you to breathe easily - stops watery eyes and runny noses. You can buy SYNA-CLEAR AT SHY'S REXALL without need for a prescription. Satisfaction guaranteed by maker. Try it today!

Introductory Offer Worth . . . . .

\$1.50

### If You Were the Judge

## Woman Trips Over Leash, Bank Blameless

By Jack Strauss, LL.B.

Frugal Frieda made her weekly visit to the bank. While she kept a weathered eye on the teller as he entered her deposit, a blind customer took his place in line behind her. He waited patiently as his seeing - eye dog reposed gracefully on the floor beside him. Before long, however, the perplexed dog had company on the floor. As Frieda turned to leave the teller's cage, she tripped over the dog's leash, held by the blind customer, and ended up lying helter-skelter next to the puzzled dog.

Counting up her injuries, Frieda sued the bank for damages.

"Since the blind man couldn't see to warn me of the hazard, and since his dog showed no inclination of even giving me a 'woof - woof' of its presence," complained Frieda in court, "the bank had a duty to make sure no one fell over the leash. What's more," she added "it was pure carelessness to have permitted the dog in the bank in the first place."

"Why YOU WERE THE JUDGE, would you make the bank pay Frieda for her injuries?"

This is how the judge ruled: NO! The judge held that liability for negligence is based upon a risk that is foreseeable and which can be anticipated. Every possible accident due to an unusual and an unforeseeable combination of circumstances is not included. Reasonable foresight is required, not prophetic vision. In this case, concluded the judge, it was not foreseeable that a woman with normal vision would trip over the leash of a seeing - eye dog lying quietly by its owner.

(Based upon a 1969 New York Supreme Court, A.D., Decision)

## THE FAMILY CIRCUS

By Bil Keane

"I couldn't eat my sandwich today -- it stayed frozen!"

## Today In U.S. History

By THE ASSOCIATED PRESS  
Today is Thursday, Jan. 8, the eighth day of 1970. There are 357 days left in the year.

Today's highlight in history: On this date in 1918, President Woodrow Wilson outlined 14 points for peace after World War I.

On this date: In 1642, the Italian astronomer, Galileo, died.

In 1679, the French explorer, La Salle, reached Niagara Falls.

In 1815, American forces under Gen. Andrew Jackson defeated the British in the Battle of New Orleans at the end of the war of 1812.

In 1923, France began the military occupation of the Ruhr Valley in Germany.

In 1943, during World War II, American bombers pounded the Tunisian port of Bizerte.

In 1959, Premier Charles de Gaulle became president of France.

Ten years ago -- The United States urged that the new U.N. committee on the peaceful uses of outer space begin meetings.

Five years ago -- Sen. Everett M. Dirksen of Illinois introduced a bill to make the marigold the national flower.

One year ago -- 81 Cubans shot their way through Cuban lines and found refuge at the U.S. naval base at Guantanamo Bay.

The cacao bean, used to make cocoa and chocolate products, was first discovered by the Spanish Cortez when he entered Mexico in the early 16th century.

# State Park Visitors Top 14 Million

JEFFERSON CITY (AP) — Missouri's state parks drew 14,298,324 visitors, including 1,026,451 overnight campers, during 1969, the state Park Board reported today.

## Floating Blocks Cut Evaporation In Stock Ponds

WASHINGTON (AP) — Agriculture Department scientists have developed floating concrete blocks to help reduce water evaporation from stock ponds.

Parks that drew over 750,000 visitors included: Roaring River State Park near Cassville 1,904,980, Table Rock State Park in the Stone-Taney County area 1,390,703, Knob Noster in Johnson County 775,137, Lake of the Ozarks 756,467 and Meramec in Franklin County 754,845.

Parks that drew more than 100,000 campers included:

Roaring River 106,069, Table Rock 103,896 and Lake of the Ozarks 103,263.

New Rock Bridge State Park in Boone County, still in the development stage, drew 144 overnight campers and 133,667 other visitors last year, the board reported.

## Son Needs Extra Coaxing to Join Dad

## In Polar Bear Swim

MILWAUKEE (AP) — Garth D. Gaskey, 41, had to use extra coaxing Thursday to get his 16-year-old son to cross the final few feet of the generation gap.

Stevens at last relented, and joined his father, a member of the Polar Bear Club in the group's annual festivity, swimming in Lake Michigan on New Year's Day only in swim trunks.

The air temperature was in the low 20s, and the water was reduced 20 per cent, Cooley

in. The elder Gaskey swam about 100 yards out in the surf to chat with a dozen more-warmly attired members of a YMCA scuba diver club.

The Polar Bear Club has been at it without interruption since the 1920s. The temperature last New Year's Day was 10 degrees below zero.

## Extension Council Vote Coming Up

### CARRELL EDMONDSON

ST. LOUIS — Carrell Louis Edmondson, 47, former resident of Sikeston and a driver for Laclede Cab Company, died Tuesday at 5:45 p.m. in a St. Louis hospital.

He was born in Sikeston Feb. 20, 1922.

Surviving are his wife, Mrs. Madonna Edmondson, St. Louis; one stepson, Gerald Peace, with the navy in Albany, Ga.; three brothers, Allen Rice, Bennie Marshal, Vernon Shelton and Raymond Moore.

### GORDON DEASON

BLODGETT — Pallbearers at services for Gordon William Deason, who died Tuesday, will be Ron Hodges, Finis Beggs, Allen Rice, Bennie Marshal, Vernon Shelton and Raymond Moore.

### AMOS C. EVANS

BENTON — Services for Amos Cleveland Evans, 85 were Wednesday afternoon at the First Baptist Church with the pastor, the Rev. Bill Coomer, officiating.

Burial was in Old Morley cemetery at Morley.

Pallbearers were Jerry Evans, Gary Evans, Jack Evans, Ricky Evans, David Dumey and Stephen Diebold.

Evans died Monday night in a Cape Girardeau hospital after a short illness.

Burial will be in the Dogwood cemetery.

### ELLEN HURD

MALDEN — Services for Mrs. Ellen Irene Hurd, 89, were Tuesday afternoon at the Church of God in Portageville.

The Rev. Tom Smith, pastor officiated, and burial was in the Portageville cemetery with Boy Scout arrangements.

Mrs. Hurd, a resident of Malden three years, died Sunday morning at her home at 806 N. Kimball. A resident of Oxley.

Mrs. Hurd was born in 1902 at Portageville, daughter of P. A. Cooley said, however, other lightweight materials show promise as evaporation retardants, particularly in the arid southwest where much water is lost to the atmosphere.

Costs for hauling water to livestock in the southwest range from about \$4 per 1,000 gallons to around \$10, while evaporation control can be \$1.50 or less, the department said.

Cooley reported that wax performed the best thus far when sprayed in molten form onto the water surface. The wax formed discs six to eight inches in diameter and about one inch thick.

Results varied, Cooley reported, but the wax method cut evaporation 100 per cent for few feet of the generation gap.

Stevens at last relented, and joined his father, a member of the Polar Bear Club in the group's annual festivity, swimming in Lake Michigan on New Year's Day only in swim trunks.

The air temperature was in the low 20s, and the water was reduced 20 per cent, Cooley
